Dear Sir,

APPLICATION FOR THE USE OF FIDELITY BANK VIRTUAL ACCOUNT TO RECEIVE PAYMENTS

The Fidelity Virtual Accounts, also referred as 'Bank Transfer', are temporary accounts that are used for payment transaction in the place of a real physical account. The account is in conformity with NUBAN standard for Nigeria Uniform Account Number that allows consumers transfer from any bank account of the destination account via USSD, Mobile or internet Banking.

At the point of payment, the paying customers are provided with either a static or dynamic account that enables them to make a transfer from any Bank of their choice to credit the account displayed. Funds are subsequently swept to the merchant's settlement account in Fidelity Bank.

In consideration of the Bank granting access to the Merchant to accept payment through this channel, We/I hereby confirm that we/I have read and understand the product and request for the Bank to extend this solution to us.
