DIVIDEND

The Board of Directors pursuant to the powers vested in it by Section of the Companies and Allied Matters Act (CAMA) 2020, proposed an interim dividend of N0.85k per share amounting to N27,200,000,000.00 from Retained Earnings as at 30 June, 2024. This will be presented for ratification by Shareholders at the next Annual General Meeting. Payment of the interim dividend is subject to withholding tax at the applicable rate of 10% which will be deducted before payment.

2 LEGAL FORM

The Bank was incorporated on 19 November 1987 as a private limited liability company in Nigeria. It obtained a merchant banking license on 31 December 1987 and commenced banking operations on 3 June 1988. The Bank converted to a commercial bank on 16 July 1999 and re-registered as a public limited company on 10 August 1999. The Bank's shares were listed on the floor of the Nigerian Stock Exchange (now Nigerian Exchange Group) on 17 May 2005.

3 PRINCIPAL BUSINESS ACTIVITIES

The principal activity of the Bank continues to be the provision of banking and other financial services to corporate and individual customers from its Headquarters in Lagos and 250 business offices. These services include retail banking, granting of loans and advances, equipment leasing, collection of deposits and money market activities.

The Bank has one wholly owned subsidiary, FidBank UK Limited (former Union Bank UK Plc) which was acquired in 2023. The financial result of the subsidiary has been consolidated into these financial statements.

4 BENEFICIAL OWNERSHIP

The Bank's shares are held largely by Nigerian citizens and corporations.

Directors interest in Contracts:

The Directors' interests in related party transactions as stated in Note 38. to the financial statements were conducted at arm's length and disclosed to the Board of Directors in compliance with Section 303 of the Companies and Allied Matters Act, 2020.

Disclosure on Directors' Remuneration

The disclosure on Directors' Remuneration is made pursuant to the Governance Codes and Regulations issued by the Central Bank of Nigeria, Nigerian Exchange Group, the Securities and Exchange Commission and the Financial Reporting Council of Nigeria.

The Bank has a formal Board Remuneration Policy, which is consistent with its size and scope of operations. The Policy focuses on ensuring sound corporate governance practices as well as sustained and long-term value creation for Shareholders. The policy aims to achieve the following amongst others: :

a. Motivate the Directors to promote the right balance between short and long-term growth objectives of the Bank while maximizing Shareholders' returns.
b. Enable the Bank attract and retain Directors with integrity, competence, experience and skills to execute the Bank's strategy;
c. Promote compliance with global regulatory trends and governance requirements, with emphasis on long-term sustainability;
d. Align individual rewards with the Bank's performance, the interests of Shareholders, and a prudent approach to risk management;

e. Ensure that remuneration arrangements are equitable, transparent, well communicated, easily understood, aligned with the interest of Shareholders and adequately disclosed.

Executive Directors' Remuneration:

Executive remuneration at Fidelity Bank is structured to provide a solid basis for succession planning and to attract, retain and motivate the right caliber of staff to ensure achievement of the Bank's business objectives.

The Board sets operational targets consisting of Key Performance Indicators (KPIs) covering both financial and non-financial measures of performance for the Executives at the beginning of each year. Executive compensation is therefore tied to specific deliverables on a fixed pay basis. Fixed pay includes basic salary, transport, housing and other allowances.

The Board Corporate Governance Committee (a Committee comprised of only Non-Executive Directors) makes recommendations to the Board on all matters relating to Directors' remuneration. The Executive Directors are not involved in decisions on their own remuneration.

Directors' Report- continued

Please see the table below for the key elements of Executive Directors' remuneration arrangements::

Remuneration element	Objective	Payment mode	Payment detail
Base Pay: This is a fixed pay (guaranteed cash) which is not dependent on performance. It comprises basic salary and all cash allowances paid to the Executive Director.			
Base Pay	· To attract and retain talent in a competitive market	· Monthly	Reviewed every 2 years and changes made on need basis and market findings Salaries for all roles are determined with reference to applicable relevant market practices
Remuneration Element	Objective	Payment Mode	Programme Detail
Performance Incentives: This represents the pay-at-risk i.e. pay contingent on the achievement of agreed key performance indicators.			
Performance Incentive	· To motivate and reward the delivery of annual goals at the Bank and individual levels	· Annually	Performance incentives are awarded based on the performance of the Bank and individual directors
	· Rewards contribution to the long-term performance of the Bank	· Annually	Executive Directors' annual performance incentives are evaluated against the performance metrics defined in his/her approved individual balanced scorecard/KPIs
Benefits and Perquisites: These are the non-monetary compensation provided to the Executive Directors such as official car, club and professional membership subscription.			
Benefits & Perquisites	• Reflect market value of individuals and their role within the Bank	• Actual items are provided or the cash equivalent for one year is given.	Review periodically in line with contract of employment

**Review of the various remuneration elements means re-appraisal to ensure they are competitive and reflective of industry expectations. They do not necessarily refer to an increment or reduction in the value of the benefits.*

Non-Executive Directors Remuneration:
Non-Executive Directors' remuneration is structured to conform to prevailing regulations and is set at a level that is at par with market developments, reflects their qualifications, the contributions required and the extent of their responsibilities and liabilities.

Non-Executive Directors are paid an annual fee in addition to reimbursable expenses (travel and hotel expenses) incurred whilst executing their role as Board members, where not provided directly by the Bank. The annual fee is approved by Shareholders at the Annual General Meeting and is paid quarterly in arrears, with subsequent changes subject to Shareholders approval.

They also receive a sitting allowance for each meeting attended by them but do not receive any performance incentive payments.

Directors' Report - continued

Please see the table below for the key elements of Non-Executive Directors' remuneration arrangements:

Remuneration Element	Objective	Payment Mode	Programme Detail
Annual Fees	· To attract individuals with relevant skills, knowledge and experience.	· Quarterly	• Reviewed every 2 years or as appropriate and changes made on need basis subject to Shareholders' approval at the Annual General Meeting.
Sitting Allowances	· To recognise the responsibilities of the Non-Executive Directors.	· Per meeting	• Reviewed every 2 years or as appropriate and changes made on need basis subject to Shareholders' approval at the Annual General Meeting.
	· To encourage attendance and participation at designated committees assigned to them.		

**Review of the various remuneration elements means the re-appraisal of the elements to ensure that they are competitive and reflective of industry expectations. They do not necessarily refer to an increment or reduction in the value of the benefit.*

The Board periodically benchmarks its remuneration practices against peer organizations whose business profiles are similar to that of the Bank and makes changes as appropriate.

The remuneration paid to the Directors in the period 30 June 2024 is disclosed in Note 38 of the Financial Statements.

7 EVENTS AFTER THE REPORTING PERIOD

The Bank is on a strong growth trajectory and requires additional capital for increased profitability, expansion (domestic and international) and enhancement of its digital capabilities. See note 47

8 PROPERTY, PLANT AND EQUIPMENT

Information relating to property, plant and equipment is provided in Note 25 to the financial statements. In the Directors' opinion, the fair value of the Bank's properties is not less than the carrying value shown in the financial statements.

Directors' Report- continued

Human Resources Policy

The Bank places a high premium on all its employees and recognizes that their input is critical for its long-term success. Consequently, the Bank ensures its continued compliance with regulatory provisions on employment and carries out pre-employment background screening on prospective employees.

The Bank also ensures that all employees are treated fairly and equally regardless of their ethnicity, gender, nationality, religion or other factors, while promoting diversity in the workplace. The Bank operates a contributory pension plan for its employees in accordance with the provisions of the Pension Reform Act 2014.

Employment Of Persons With Special

There is no discrimination in considering applications for employment including applications from persons with special needs. The Bank ensures that such persons are afforded identical opportunities with other employees. Employees include persons with special needs and the Bank ensures that the work environment is accessible and conducive for them.

Health, Safety and Welfare of Employees

The health, safety and wellbeing of all employees is a top priority and the Bank continues to make significant investments along these lines.

All employees are provided with comprehensive healthcare coverage through a health management scheme with 3,265 hospitals across the country. The scheme covers each staff, his/her spouse and four biological/adopted children.

The Bank also has an international health insurance scheme, which provides emergency medical evacuation support. These healthcare initiatives are actively enhanced with regular health screening exercises including mammograms, prostate screening, eye examinations, cardiovascular and tuberculosis tests and immunization for cerebrospinal meningitis, Hepatitis B and COVID-19.

Beyond direct clinical healthcare support, staff members also benefit from structured preventive health awareness programmes. In this regard, the Bank carries out well-articulated awareness sessions on topical health issues including preventing the spread of malaria, diabetes, hypertension, and kidney disease. Staff are also engaged on occupational safety matters including regular fire and first aid drills, with each business office having designated fire safety officers/champions.

In addition to physical health, the Bank is mindful of the importance of mental wellness in the overall wellbeing of staff and arranges regular sessions on mental health by experienced professionals, while ensuring individual access to counselling/follow-up sessions.
The Bank has a defined process for preventing the spread of communicable diseases including HIV/AIDS through health campaigns that encourage good personal hygiene while ensuring that no person living with HIV/AIDS is discriminated against. Through regular medical updates from the health insurance providers, emails, text messages and periodic health awareness presentations, staff members are frequently educated on how to take personal responsibility for their health, mental and physical wellbeing, by consciously making better lifestyle choices.

Staff health and the COVID-19 Pandemic

Health awareness programmes also focus on preventing the spread of the Corona Virus. The Bank adopted several measures to ensure that staff and other stakeholders were protected from the Corona Virus.
These include implementation of an onsite and remote work model, regular advisories on safety measures to prevent the spread of the virus, vaccination of staff and their dependents and ensuring safe practices in the office.

Human Rights

The Bank has a formal Human Rights Policy and consciously strives to ensure that it does not engage in business activities or relationships that would violate the provisions of the policy.

Directors' Report- continued

The policy aligns with extant laws, including the relevant provisions of the Constitution of the Federal Republic of Nigeria. The Bank will continue to meet the standards of international treaties on human rights, as domesticated and ratified by the National Assembly, as well as other workplace related treaties.

Employee involvement and training
The Bank is committed to keeping employees fully informed of its corporate objectives and the progress made on achieving same. The opinions and suggestions of staff are valued and considered not only on matters affecting them as employees, but also on the general business of the Bank. The Bank operates an open communication policy and employees are encouraged to communicate with Management through various media.

Sound management and professional expertise are considered to be the Bank's major assets, and investment in employees' future development continues to be a top priority. Fidelity is a learning organization and believes in the development of her employees, irrespective of their job roles and responsibilities in the Bank. As an institution committed to maintaining its competitive edge, Fidelity Bank ensures that employees receive qualitative training within and outside the country. Staff Training Plans are drawn up yearly premised on grade specific baseline and function specific programmes. These include local, offshore and inhouse programmes.

Worthy of note are the Bank's Weekly Thursday Lecture Series, the Fidelity Business School with its various academies and the E-Learning Management System (LMS) Platform, all of which are designed to deepen knowledge, skills, and productivity.

The Bank currently has nine modern Learning Centers at Lagos, Ibadan, Benin, Port-Harcourt, Owerri, Awka, Enugu, Abuja, and Kano. A total of 3534 staff (2473 core staff and 1061 non-core), participated in various training programs as of 30 June 2024.

Training programmes are not limited to function specific programmes but include programmes on occupational safety and life skills such as fire drills, first and treatment and emergency evacuation procedures.

Research and Development
The Bank continues to research, develop, and deploy innovative banking products.

Credit Ratings
The Central Bank of Nigeria's Revised Prudential Guidelines requires all banks to be credit rated. The ratings are updated every year and published in the Annual Report. During the period under review, Fidelity Bank was assigned the credit ratings below by the following rating agencies:

Fitch Ratings	Long-Term = B- Short-Term =B Outlook = Stable
Standard & Poor (S&P)	Long-Term = B- Short-Term =B Outlook = Stable
Global Credit Rating Co (GCR)	Short Term = A1(NG) Long Term = A (NG) Outlook = Stable
Agusto & Co	Long Term = "A" Outlook = Stable

Additional information on the ratings can be obtained from the Bank's website at https://www.fidelitybank.ng/investor-relations/credit-ratings/

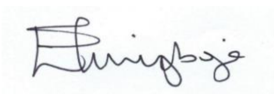
Directors' Report- continued

External Auditors

The appointment of the External Auditors, Deloitte & Touché, was approved on April 30, 2021, at the 33rd Annual General Meeting in accordance with Section 401(1) of the Companies and Allied Matters Act, 2020. The appointment took effect on May 5, 2021.

The External Auditors indicated their willingness to continue in office as the Bank's auditors for 2024 financial year in accordance with Section 401(2) of the Companies and Allied Matters Act, 2020. The resolution authorizing the Directors to determine their renumeration was proposed and approved at the 36th Annual General Meeting on May 16, 2024.

By order of the Board.



Ezinwa Unuigboje
Company Secretary

Lagos
Date: 15th September 2024

Statement Of Directors' Responsibilities In Relation To The Preparation Of The Financial Statements

In accordance with the provisions of Sections 377 and 378 of the Companies and Allied Matters Act (CAMA) 2020, Banks and Other Financial Institutions Act (BOFIA) 2020, and the Financial Reporting Council Act No. 6, 2011, the Directors are responsible for the preparation of financial statements which give a true and fair view of the state of affairs of the Bank, and of the financial performance for the period . The responsibilities include ensuring that:

(a) Appropriate internal controls are established both to safeguard the assets of the Bank and to prevent and detect fraud and other irregularities.

(b) The Bank keeps accounting records which disclose with reasonable accuracy the financial position of the Bank and which ensure that the financial statements comply with requirements of International Financial Reporting Standards and the Companies and Allied Matters Act (CAMA) 2020, Banks and Other Financial Institutions Act (BOFIA) 2020, the Financial Reporting Council Act No. 6, 2011, Revised Prudential Guidelines and relevant circulars issued by the Central Bank of Nigeria.

(c) The Group has used appropriate accounting policies, consistently applied and supported by reasonable and prudent judgments and estimates, and that all applicable accounting standards have been followed; and

(d) It is appropriate for the financial statements to be prepared on a going concern basis unless it is presumed that the Bank will not continue in business.

The Directors accept responsibility for the financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgments and estimates in conformity with International Financial Reporting Standards, the requirements of the Companies and Allied Matters Act, CAP C20 (CAMA) 2020 , Banks and Other Financial Institutions Act (BOFIA) 2020 , the Financial Reporting Council Act No. 6, 2011, Revised Prudential Guidelines, and relevant circulars issued by the Central Bank of Nigeria.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Group and its financial performance for the period under review

The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of the financial statements, as well as adequate systems of financial control.

Nothing has come to the attention of the Directors to indicate that the Bank and its subsidiary will not remain a going concern from the date of this statement.

Signed on behalf of the Directors by:

Kevin Ugwuoke

Report of the Statutory Audit Committee
For The Period Ended June 30, 2024

To The Members of Fidelity Bank Plc

In compliance with Section 404(7) of the Companies and Allied Matters Act, 2020, we the members of the Statutory Audit Committee hereby report that we:

- Reviewed the scope and planning of the audit requirements and found them adequate.

- Reviewed the financial statements for the period ended 30 June 2024 and are satisfied with the explanations obtained.

- Reviewed the External Auditors Management Report for the period ended 30 June 2024 and are satisfied that Management is taking appropriate steps to address the issues raised.

- Ascertained that the Company has complied with the provisions of Central Bank of Nigeria (CBN) Circular BSD/1/2004 dated February 18, 2004 on "Disclosure of insider credits in the financial statements of banks". In addition, related party transactions and balances have been disclosed in the Notes to the Financial Statements for the period ended 30 June 2024 in accordance with the prescribed CBN format.

- Ascertained that the accounting and reporting policies of the Company for the period ended 30 June 2024 are in accordance with legal requirements and agreed ethical practices.

The External Auditors confirmed having received full cooperation from the Company's Management and that the scope of their work was not restricted in any way.

Mrs. Ezinwa Unuigboje - Company Secretary

Statement Of Corporate Responsibility For The Preparation Of The Financial Statements

In line with the provision of Section 405 of CAMA 2020, the Chief Executive Officer and Chief Financial officer of Fidelity Bank Plc have reviewed the Financial Statements of the bank for the period ended **June 30 2024** and accept responsibility for the financial and other information within the report based on the following:

i The financial statements do not contain any untrue statement of material fact or omit to state a material fact, which would make the statement misleading.

ii The financial statements and all other financial information included in the statements fairly present, in all material respects, the financial condition and result of operation of the bank as of and for the period ended June 30, 2024.

iii The bank's internal controls were evaluated within 90 days of the financial reporting date and are effective as of 30 June 2024

iv The bank's internal Controls has been designed to ensure that all material information relating to the bank has been provided.

v That we have disclosed to the bank's Auditor and the Audit Committee that there are no significant deficiencies in the design or operation of the bank's internal controls which could adversely affect the bank's ability to record, process, summarise and report financial data, and have discussed with the auditors any weaknesses in internal controls observed in the course of the Audit; And that there is no fraud involving management or other employees which could have any significant role in the bank's internal control.

vi There is no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of this audit, including any corrective actions with regard to any observed deficiencies and material weaknesses.

Signed on behalf of the Directors by:
Date: 15 September 2024

Victor Abejegah
Chief Financial Officer
FRC/2013/ICAN/00000001733

Nneka Onyeali-Ikpe
Managing Director/Chief Executive Officer
FRC/2013/NBA/00000016998

Corporate Governance Report

Introduction
This report is designed to update stakeholders on how Fidelity Bank Plc ("Fidelity" or "the Bank") discharged its fiduciary responsibilities in relation to governance as well as its level of compliance with relevant statutory and regulatory requirements during the review period.

The Board of Directors is committed to ensuring sustainable long-term success for the Bank and is mindful that best practice in corporate governance is essential for ensuring accountability, fairness and transparency in a company's relationship with all its stakeholders.

The Bank's Shared Values of Customer First, Respect, Excellence, Shared Ambition and Tenacity (CREST) continue to be the guiding principles, which we believe are necessary to sustain the growth of the business and our relationship with stakeholders, while keeping faith with our vision to be "No. 1 in every market we serve and for every branded product we offer".

The Bank successfully completed the CGRS (Corporate Governance Rating System) assessment of the Nigerian Exchange Group (NGX) and is CGRS rated.

Corporate Governance Framework
Fidelity Bank has a structured corporate governance framework, which supports the Board's objective of achieving sustainable value. This is reinforced by the right culture, values and actions at the Board and Management level and throughout the entire organization.

The Board of Directors is the principal driver of corporate governance and has overall responsibility for ensuring that the tenets of good corporate governance are adhered to in the management of the Bank. In the Bank's bid to achieve long-term shareholder value, we constantly strive to maintain the highest standards of corporate governance, which is the foundation on which we manage risk and build the trust of our stakeholders.

The Bank's governance framework is designed to ensure on-going compliance with its internal policies, applicable laws and regulations as well as the corporate governance codes. These include the Financial Reporting Council of Nigeria's (FRCN) Code of Corporate Governance ("the NCCG Code"), the Central Bank of Nigeria's (CBN) Corporate Governance Guidelines for Commercial, Merchant, Non-Interest and Payment Service Banks in Nigeria ("the CBN Guidelines"), the Securities and Exchange Commission's Corporate Governance Guidelines ("the SEC Guidelines"), the Post-Listing Requirements and Rules issued from time to time by the Nigerian Exchange Group (NGX).

The Bank undertakes frequent internal assessment of its level of compliance with the Guidelines/ Rules and submits periodic compliance reports to the CBN, SEC, NGX, FRCN and Nigeria Deposit Insurance Corporation (NDIC).

The Code, Guidelines and Rules are quite detailed and cover a wide range of issues, including Board and Management, Shareholders, Rights of Stakeholders, Disclosure Requirements, Risk Management, Organizational Structure, Quality of Board Membership, Board Performance Appraisal, Reporting Relationship, Ethics and Professionalism, Conflict of Interest, Sustainability, Whistleblowing, Code of Ethics, Complaints Management Processes and the Role of Auditors. These, in addition to the Bank's Memorandum and Articles of Association, Board, Board Committees and Management Committee Charters, collectively constitute the bedrock of the Bank's corporate governance framework.

The Bank's governance structure is hinged on its internal governance framework, which is executed through the following principal organs:

(a) The Board of Directors
(b) Board Committees
(c) Statutory Audit Committee
(d) General Meetings
(e) Management Committees

Corporate Governance Report - continued

Key Governance Development

(1) Key Governance Developments (Board Changes) :
The following change occurred on the Board after the 35th Annual General Meeting, which held on May 23, 2023.

i	Mr. Hassan Imam, former Executive Director North, retired from the Board with effect from January 10, 2024, sequel to his appointment as the MD/CEO of another financial institution by the Central Bank of Nigeria.
2	Mr. Abolore Solebo was appointed as Executive Director, Corporate Banking with effect from February 1, 2024. The appointment was approved by the Central Bank of Nigeria.

(i) Extension of employment contract of MD/CEO
On February 8, 2024, the Board approved the extension of the employment contract of the MD/CEO, Dr. Nneka Onyeali-Ikpe from 2024 to 2026.

(ii) Issuance of additional shares by way of Public Offer and Rights Issue
The Bank is on a strong growth trajectory and requires additional capital for increased profitability, expansion (domestic and international) and enhancement of its digital capabilities. Consequently, further to Shareholders' approval being obtained for a capital raising exercise via a Public Offer and Rights Issue (the Combined Offer) at an Extra-Ordinary General Meeting held on August 11, 2023. The Bank obtained regulatory approval from the Securities & Exchange Commission (SEC), for the Combined Offer which opened on June 19, 2024, and originally billed to close on July 29, 2024 ; though extended to close on August 12, 2024 .

The Board of Directors

Board Size
The Board currently comprises of fourteen (14) Directors, six (6) Executives including the Managing Director/Chief Executive Officer (MD/CEO) and eight (8) Non-Executive Directors including three (3) Independent Non-Executive Directors. The Independent Non-Executive Directors do not hold any shares in the Company, nor are they involved in any business relationship with the Bank. All Board appointments are in line with the Bank's Directors Selection Criteria Policy, and applicable regulations and are also subject to the approval of the Central Bank

Board Structure and Responsibilities
The Board is responsible for creating and delivering sustainable value to all stakeholders through efficient management of the business. The Board is also responsible for determining the strategic direction of the Bank, which said strategy is implemented through Executive Management, within a framework of rewards, incentives and controls. Executive Management, led by the Managing Director/Chief Executive Officer, constitutes the key management organ of the Bank and is primarily responsible for achieving performance expectations and increasing shareholder value.

Executive Management reports regularly to the Board on issues relating to the growth and development of the Bank. The Board plays a major supportive and complementary role in ensuring that the Bank is well managed and that appropriate controls are in place and fully operational.

The Board is accountable to the Bank's stakeholders and continues to play a key role in governance. It is the responsibility of the Board of Directors to approve the Bank's organizational strategy, develop directional policy, appoint, supervise and remunerate senior executives and ensure accountability of the Bank to its owners, stakeholders and the regulatory authorities. The Board is also responsible for providing stable and effective leadership for the Bank, to facilitate

Responsibility for the day-to-day management of the Bank resides with the MD/CEO, who carries out her functions in accordance with guidelines approved by the Board of Directors. The MD/CEO is ably assisted by the five (5) Executive Directors. In line with best practice and requisite regulations, the roles of the Chairman of the Board and MD/CEO are assumed by different individuals to ensure that the right balance of power and authority is maintained.

The effectiveness of the Board is derived from the broad range of skills and competencies of the Directors, who are persons of high integrity and seasoned professionals and are competent, knowledgeable and proficient in their professional careers, businesses and/or vocations. The Directors bring to the Board their diverse experience in several fields ranging from business management, corporate finance, accounting, banking operations, Oil & Gas, information technology, risk management, engineering, project finance, leasing, law, entrepreneurship and treasury management.

Corporate Governance Report - continued

The professional background of the Directors reflects a balanced mix of skills, experience and competencies that impacts positively on the Board's activities. No individual dominates the decision-making process. The Board operated effectively throughout the period and continues to do so.

The Directors are members of the Institute of Directors of Nigeria (IoD) and/or the Bank Directors Association of Nigeria (BDAN), two non-profit organizations dedicated to promoting good corporate governance and high ethical standards for Nigerian companies/banks.

Access to Information

Management is responsible for ensuring that the Board receives information on the Bank's operations and activities on a regular and timely basis to aid the decision-making process. Executive Management and other principal officers attend Board and Board Committee meetings to make presentations and clarify any issue as appropriate.

The Directors have unfettered access to Management and relevant information on the Bank's operations. They also have the resources to execute their responsibilities as Directors, including access to external independent professional advice at the Bank's expense.

Matters reserved exclusively for the Board include but are not limited to: approval of credit requests in excess of the approval limit of the Board Credit Committee, approval of the Bank's quarterly, half yearly and full year financial statements, disposal of assets other than in the normal course of the Bank's business, mortgaging or otherwise creating security interests over the assets of the Bank, appointment or removal of key management personnel, strategic planning and succession planning. The Board is also responsible for the integrity of the financial statements.

The Board has a comprehensive Remuneration Policy, which is designed to address the compensation of both Executive and Non-Executive Directors. The Policy is designed to establish a framework for Directors' remuneration that is consistent with the Bank's scale and scope of operations and is aimed at attracting, motivating and retaining qualified individuals with the talent, skills and experience required to run the Bank effectively.

The Board meets quarterly, and additional meetings are convened as required. The Directors are provided with comprehensive information at each quarterly meeting and briefed on business developments between Board meetings. The Board met seven (7) times during the half year ended 30 June 2024.

Corporate Governance Report - continued

Details of the Directors who served on the Board during the half year ended 30 June 2024, are indicated below:

Directors' Appointments, Retirements and Re-elections
Directors' appointments, retirements and re-elections are effected in accordance with the provisions of the Bank's Memorandum and Articles of Association, the Board Appointment and Directors' Selection Criteria Policy, the Central Bank's Assessment Criteria for Approved Persons Regime in Nigeria as well as other relevant laws, to ensure a balanced and experienced Board.

The Board Remuneration, Nomination and Governance Committee is charged with the responsibility of leading the process for Board appointments and for ascertaining and recommending suitable candidates for the Board's approval. The appointment process is transparent and involves external consultants who carry out an independent evaluation of all nominees as part of the appointment process. The importance of achieving the right balance of skills, experience and diversity is also taken into consideration in making Board appointments.

Mr. Hassan Imam, former Executive Director North, retired from the Board on January 10, 2024, sequel to his appointment as the MD/CEO of another financial institution by the Central Bank of Nigeria, while Mr. Abolore Solebo was appointed as Executive Director, Corporate Banking with effect from February 1, 2024.

Directors' Term of Office
To ensure that the Board is continually renewed and refreshed, Non-Executive Directors' tenure is limited to maximum of two (2) terms of three (3) years while Independent Non-Executive Directors serve for a maximum of two (2) terms of four (4) years. The tenure of Executive Directors is coterminous with their respective contracts of employment. All Board appointments are subject to the Bank's Retirement Age Policy and the CBN's tenure guidelines.

Board Induction and Continuous Education
Given the increasing complexity of banking transactions, the demands of the operating environment and the Directors' weighty oversight responsibilities, the Board of Fidelity Bank acknowledges that its ability to effectively discharge its functions can only be enhanced by qualitative training programs. Training of individual Directors and the Board are important investments for every organization, given the strong correlation between qualitative Board training programmes and sound corporate governance practices, growth, and profitability.

The Bank has a Directors Induction and Continuous Development Policy, which provides for formal induction programmes for newly appointed Directors and bespoke training programmes for serving Directors. The Directors also participate in regulator-initiated training programmes.

Corporate Governance Report - continued

An induction plan is designed for all new Directors and covers personalized in-house orientation including individual meetings with Executive Management and Senior Executives responsible for the Bank's key business areas, and external training programmes. The induction programme includes an overview of the Bank's operations, risk management, treasury operations, internal audit, compliance, corporate governance framework and Board processes. Board development programmes also include executive coaching sessions and the annual Board strategy retreat.

New Directors also receive a comprehensive induction pack, which includes copies of Board and Board Committees' Charters, the annual goals of the Board and Board Committees for the year, relevant legislations and the calendar of Board meetings and activities for the year. The induction and training programmes are robust and designed to equip all Directors to effectively discharge their responsibilities whilst improving overall board effectiveness.

Corporate Governance Report - continued

The Bank renders periodic returns on training programmes attended by Directors to the Central Bank. The Directors who served on the Board during the period under review, participated in the programmes listed below:

S/N	Course	Vendor	Start Date	End Date	Name of Directors
1	Leadership For The 21st Century	Havard Kennedy School	January 21, 2024	January 26, 2024	Dr. Ken Opara
2	Strategic Decision-Making for Leaders	University of Cambridge Judge Business School	April 22 2024	April 24 2024	Chief Nelson Nweke
3	Competitive Strategy - Creating and Sustaining Competitive Advantage	Kellogg University	May 13, 2024	May 17, 2024	Mr. Kevin Ugwuoke
4	Business Essentials for Executives	Wharton School of Business	May 13, 2024	May 17, 2024	Mr. Chinedu Okeke
5	The Strategic Leader Programme	Columbia Business School	May 21, 2024	May 23, 2024	Mr. Mustafa Chike-Obi
6	Leading Strategic Growth & Change	Columbia Business School	June 10 2024	June 14 2024	1. Engr. Henry Obih
7	Disruptive Innovation	Harvard Business School	June 17 2024	June 22 2024	Mrs. Morohunke Bammeke
8	Board Induction Programme	In-house (Fidelity Bank Plc)	March 21, April 3, 2024	April 4, 2024	Mr. Abolore Solebo

Access to independent advice:
In compliance with the Codes and global best practices, the Board ensures that the Directors have access to independent professional advice when they deem same necessary to discharge their responsibilities as Directors. The Bank also provides the Directors with sufficient resources to enable them execute their oversight responsibilities.

Independent consultants engaged during the review period include:

S/N	Consultant	Brief
1	KPMG Advisory Services	Corporate Strategy, Board Appraisal
2	PricewaterhouseCoopers	Consultancy Services

Board Performance Appraisal:
The Board, recognizing the need to maintain an energized, proactive and effective Board, adopted a formal Board and Board Committees' Performance Evaluation Policy in April 2012. To give effect to the provisions of the Policy and comply with the Codes, the Board engages an independent consultant to conduct an annual appraisal of the Board's performance and highlight issues that require remedial action.

The appraisal enables the Board to identify future developmental needs, while benchmarking its performance against global best practices and enhancing board effectiveness.

The appraisal is extensive and covers the Board, Board Committees and individual Directors, focusing on strategy, corporate culture, monitoring, evaluation, performance and stewardship. A governance survey is also occasionally administered on senior management staff of the Bank and the result of the survey is presented to the Board.

Amongst other indices the annual assessment focuses on the Board's role in the following key areas:

(a) Defining strategy and management of the Board's own activities.
(b) Monitoring Management and evaluating its performance against defined objectives.
(c) Implementing effective internal control systems.
(d) Communicating standards of ethical organizational behaviour by setting the tone at the top.

The independent consultant's report on the Board appraisal is presented to Shareholders at the Annual General Meetings and submitted to the Central Bank of Nigeria. The Board appointed KPMG Advisory Services to carry out the Board appraisal and governance evaluation exercise for 2023 financial year. The Consultant's report was presented to the shareholders at the 36th Annual General Meeting on May 16, 2024.

Board Meetings
To ensure its effectiveness throughout the year, the Board develops an Annual Agenda Cycle, Annual Goals and Calendar of Board activities at the beginning of each year. These not only focus the activities of the Board, but also establish benchmarks against which its performance can be evaluated at the end of the year.

While a detailed forward agenda is available, it is periodically updated to reflect contemporary issues that may arise, which may be of interest to the Bank, the financial services industry or national/global economies. The Board meets quarterly or as the need arises.

A. Board Committees
The responsibilities of the Board are also accomplished through six (6) standing committees, which work closely with the Board to achieve the Bank's strategic objectives. The Board Committees are listed below:

(a) Board Credit Committee.
(b) Board Risk Committee.
(c) Board Audit Committee.
(d) Board Corporate Governance Committee.
(e) Board Finance and General-Purpose Committee.
(f) Board Information Technology Committee.

To enable the Committees, execute their oversight responsibilities, each Committee has a formal Charter, which defines its objectives and operating structure including composition, functions, and scope of authority. At the beginning of the year, each Committee develops its Annual Agenda Cycle, Annual Goals, and meeting calendar, to guide its activities during the year.

Corporate Governance Report - continued

Complex and specialized matters are effectively dealt with through the Committees, which also make recommendations to the Board on various matters. The Committees present periodic reports to the Board on the issues considered by them.

The composition of Board Committees as of 30 June 2024, was as follows:

S/N	COMMITTEE	MEMBERSHIP	DESIGNATION
1	Board Finance & General Purpose Committee (FGPC):	Chief Nelson C. Nweke	Chairman (Non-Executive Director)

Corporate Governance Report - continued

1. Board Credit Committee:

This Committee functions as a Standing Committee of the Board with responsibility for Credit Management. The primary purpose of the Committee is to advise the Board on its oversight responsibilities in relation to the Bank's credit exposures and lending practices. The Committee comprises a minimum of four (4) Non-Executive Directors (including an Independent Non-Executive Director) and the MD/CEO. The Committee meets monthly or as the need arises.

Its terms of reference include:

(a) Exercising all Board assigned responsibilities on credit related issues.
(b) Review and recommend credit policy changes to the full Board.
(c) Ensure compliance with regulatory requirements on credits.
(d) Approving credits above the Management's credit approval limit.
(e) Tracking the quality of the Bank's loan portfolio through quarterly review of risk assets.
(f) Receive and consider recommendations from the Management Credit Committee (MCC), Asset & Liability Committee (ALCO), and Operational Risk & Service Measurement Committee on matters relating to credit management.
(g) Consider and recommend for full Board approval, Director, and Insider-Related credits.
(h) Consider exceptions to rules or policies and counsel on unusual credit transactions

2. Board Risk Committee:

This Committee functions as a Standing Committee of the Board with responsibility for the enterprise risk management activities of the Bank, approving appropriate risk management procedures, and measurement methodologies, as well as identification and management of strategic business risks of the Bank. It consists of a minimum of four (4) Non-Executive Directors including an Independent Non-Executive Director, the Executive Director, Chief Risk Officer and the Managing Director/CEO.

Its terms of reference include:

(a) Establishing the Bank's risk appetite;
(b) Ensuring that business profiles and plans are consistent with the Bank's risk appetite;
(c) Establishing and communicating the Bank's risk management framework including responsibilities, authorities and control;
(d) Establishing the process for identifying and analyzing business level risks;
(e) Agreeing and implementing risk measurement and reporting standards and methodologies;
(f) Establishing key control processes and practices, including limits, structures, impairments, allowance criteria and reporting requirements;
(g) Monitoring the operation of the controls and adherence to risk direction and limits;
(h) Ensuring that risk management practices and conditions are appropriate for the business environment.

The Committee meets quarterly or as the need arises. Occasionally, a joint meeting is held between the Board Credit Committee and the Board Risk Committee to review credit risk related issues.

3. **Board Audit Committee:**

The Committee functions as a Standing Committee of the Board with responsibility for internal control over financial reporting, including internal and external audit. The Committee is composed of a minimum of four (4) Non-Executive Directors (including an Independent Director who chairs the Committee in line with the Central Bank's guidelines on composition of the Board Audit Committee). The Committee meets quarterly or as the need arises.

Its terms of reference include:

(a) Ensuring the integrity of the Bank's financial reporting system.
(b) Ensuring the existence of independent internal and external audit functions.
(c) Ensuring the effectiveness of the internal control system, prudence and accountability in significant contracts and compliance with regulatory requirements.
(d) Effectiveness of accounting and operating procedures, and
(e) Ensuring compliance with legal and regulatory requirements.

Corporate Governance Report - continued

4. **Board Corporate Governance Committee:**

The Board Corporate Governance Committee comprises a minimum of four (4) Non-Executive Directors (including an Independent Director who chairs the Committee). The Managing Director (and in her absence, an Executive Director nominated by her) is required to attend the Committee's meetings. The Committee has oversight responsibility for issues relating to the Bank's Corporate Governance Framework.

The Committee meets quarterly or as the need arises. Its terms of reference include.

(a) Review and make recommendations for improvements to the Bank's Corporate Governance Framework.

(b) Recommend membership criteria for the Board and its Committees.
(c) Review and make recommendations on the Bank's key human capital policies.
(d) Review and make recommendations on Key Performance Indicators for the Managing Director and Executive Directors.
(e) Ensure that an independent Board evaluation exercise is undertaken annually.
(f) Provide oversight on Directors' orientation and continuing education programmes.
(g) Ensure proper reporting and disclosure of the Bank's corporate governance procedures to stakeholders.

(h) Ensure proper succession planning for the Bank.

5. **Board Finance & General Purpose Committee:**

The Board Finance & General Purpose Committee has oversight responsibility for issues relating to the Bank's budgetary process, procurements and strategic planning. The Committee is composed of a minimum of four (4) Non-Executive Directors (including an Independent Director). The Committee meets quarterly or as the need arises.

Its terms of reference include:

(a) Review major expense lines periodically and approve expenditure within the approval limit of the Committee as documented in the financial manual of authorities.
(b) Participate in and lead an annual strategy retreat for the Board.
(c) Review annually, the Bank's financial projections, as well as capital and operating budgets and review on a quarterly basis with Management, the progress of key initiatives, including actual financial results against targets and projections.
(d) Make recommendations to the Board regarding the Bank's investment strategy, policy and guidelines, its implementation and compliance with those policies and guidelines and the performance of the Bank's investment portfolios.
(e) Ensure a transparent and competitive tendering process on major contracts to guarantee the best value for the Bank.
(f) Review and recommend to the Board for approval, the procurement strategy and policy of the Bank.
(g) Ensure that all major contracts are carried out according to the terms and conditions of the contract agreement.

(h) Other finance matters including recommending for Board approval, the Bank's dividend policy, including amount, nature and timing and other corporate actions.
(i) Recommend a comprehensive framework for delegation of authority on financial matters and ensure compliance with same.

Corporate Governance Report - continued

6. **Board Information Technology Committee:**

The Board Information Technology Committee ("the Committee") has oversight responsibility for all issues relating to the Bank's Information Technology (IT) and digitalisation strategies, investments and risks. The Committee is also responsible for matters relating to IT Governance, Cybersecurity and IT Risk. The Committee is composed of a minimum of four (4) Non-Executive Directors including an Independent Director. The Chairman of the Committee is an Independent Non-Executive Director. The Committee meets quarterly or as the need arises.

Its terms of reference include:

(a) Execution of the Board's strategy in relation to Information Technology and Digitalization.
(b) Provide advice on strategic direction on IT related issues.
(c) Review IT related investments and expenditure.
(d) Review IT-related innovation as well as existing and future trends that may affect the Bank's digital strategy.

(e) Review the effectiveness of the Bank's IT and cybersecurity risk identification and remediation practices, policies, controls and procedures.
(f) Review the effectiveness of the Bank's overall IT enterprise architecture including the stability and reliability of the digital eco-system, the quality of IT services provided and the type of customer experience delivered.

(g) Ensure the Bank's compliance with applicable IT related laws and regulations.

The Committee was established with effect from January 1, 2022.

Note:
Except for the Board Credit Committee, which meets monthly or as the need arises, all other Board and Board Committee meetings are held quarterly or as the need arises. The Board Chairman is not a member of any Board Committee. Each Board Committee Chairman presents a formal report on the Committee's deliberations at subsequent Board meetings.

C. Statutory Audit Committee

The Statutory Audit Committee was established in compliance with Section 404(3) of the Companies and Allied Matters Act, 2020. The Committee has five (5) members comprising of two (2) members of the Board and three (3) members nominated by Shareholders at the Annual General Meeting. The composition remained unchanged in the year ended December 31, 2023.

The Committee's primary responsibilities include:

(a) Review the External Auditor's proposed audit scope and approach.
(b) Monitor the activities and performance of the External Auditors.
(c) Review with the External Auditors any difficulties encountered in the course of the audit.
(d) Review the results of the half year and annual audits and discuss same with Management and the External Auditors.
(e) Present the report of the Statutory Audit Committee to Shareholders at the Annual General Meeting.

Corporate Governance Report - continued

Membership and attendance at Statutory Audit Committee meetings during the period ended 30 June, 2024 is

D. General Meetings

Fidelity Bank recognizes that its shareholders are major stakeholders in the enterprise and that General Meetings are the primary avenue for interaction between the shareholders, Management and the Board. Since shareholders collectively constitute the highest decision-making organ in the Company, the Bank complies strictly with regulatory requirements and convenes at least one General Meeting (the Annual General Meeting) in each financial year, to give all shareholders the opportunity to participate in governance.

The Annual General Meetings are convened and conducted in a transparent manner and attended by representatives of the Central Bank of Nigeria, Securities & Exchange Commission, Nigerian Exchange Group, Corporate Affairs Commission, Nigeria Deposit Insurance Corporation, various Shareholders' Associations and other stakeholders.

The Board takes a keen interest in its responsibility to ensure that material developments (financial and non-financial) are promptly communicated to shareholders. The Board is also conscious of regulatory reporting requirements and routinely discloses material information to all stakeholders. To achieve this, the Bank has developed formal structures for information dissemination via direct communication to all interested parties using electronic and print media as well as its website, **www.fidelitybank.ng**

The Bank's Company Secretariat is well equipped to handle enquiries from shareholders in a timely manner. The Company Secretary also ensures that concerns expressed by investors, are communicated to Management and the Board as appropriate.

E. Management Committees

In addition to the Board, Board Committees, Statutory Audit Committee and the Shareholders in General Meeting, the Bank's governance objectives are also met through the Management Committees. Each Management Committee has a formal Charter, which guides its purpose, composition, responsibilities and similar matters. Additional information on the terms of reference of management committees, is provided below:

1. Executive Committee:

The Executive Committee (EXCO) is charged with overseeing the business of the Bank within agreed financial and other limits set by the Board from time to time. This Committee is comprised of the Managing Director and the Executive Directors of the Bank. The Committee meets monthly or as required and has the following key objectives:

(a) Ensure implementation of the Bank's Business Plan and Strategy upon approval of same by the Board;

(b) Review budget presentations for each financial year ahead of presentation to the Board;
(c) Evaluate the Bank's strategy at quarterly intervals and update the Board on same;
(d) Review the Bank's Budget performance at quarterly intervals and update the Board on same at bi-annual intervals;
(e) Review the Bank's Quarterly, Half-Yearly and Full Year financial statements ahead of presentation to the Board and the Regulators;
(f) Review and approve proposals for capital expenditure and acquisitions within its approval limit;
(g) Make recommendations to the Board on dividend and/or corporate actions for each financial year; and

(h) Any other matter as the Board may direct.

Corporate Governance Report - continued

2. Asset & Liability Committee:

Membership of the Asset & Liability Committee is derived mainly from the asset and liability generation divisions of the Bank. The Committee meets fortnightly or as required and has the following key objectives:

(a) Review the economic outlook and its impact on the Bank's strategy.
(b) Ensure adequate liquidity.
(c) Ensure that interest rate risks are within acceptable parameters.
(d) Maintain and enhance the Bank's capital position.
(e) Maximize risk adjusted returns to stakeholders over the long term.

3. Management Credit Committee:

The primary purpose of the Committee is to advise the Board of Directors on its oversight responsibilities in relation to the Bank's credit exposures and lending practices. The Committee also provides guidance on development of the Bank's credit and lending objectives. The Committee meets once a week or as necessary and its key responsibilities include the following:

(a) Establishing the Minimum Lending Rate and Prime Lending Rate (PLR).
(b) Recommending Target Market Definition (TMD) and Risk Assets Acceptance Criteria (RAAC)
(c) Pre-approval of Platform Credits (Product Papers).
(d) Recommend Inter-Bank and Discount House Placement Limits.
(e) Review the policies and the methodologies for assessing the Bank's credit risks and recommend appropriate exposure limits.
(f) Approve credit facilities within the Committee's approval limits and recommend for approval as appropriate, credit facilities above its approval limit.
(g) Review and recommend the Bank's loan portfolio limits and classifications.
(h) Review and recommend changes to credit policy guidelines for Board approval.

4. Criticized Assets Committee:

The Criticized Assets Committee is responsible for the review and coverage of the Bank's total risk assets portfolio for quality. It also ensures that approved facilities are operated in accordance with approved terms and conditions and accelerates collection/recovery of nonperforming loans. This Committee is comprised of the Managing Director, all the Executive Directors of the Bank and key management personnel including the Chief Risk Officer. The Committee meets monthly or as required and has the following key objectives:

(a) Review of individual credit facilities based on their risk rating and exceptions.
(b) Review of the loan portfolio of Business Divisions/Groups/Units bank wide.
(c) Review the activities and oversee the effectiveness of the Regional Criticized Assets Committees.
(d) Review of collateral documentation to ensure compliance with approvals.
(e) Approval of portfolio classification/reclassification and levels of provisioning.
(f) Approval of loan transfers to any committee or persons for recovery action.
(g) Continuously review and evaluate recovery strategies on each account and recommend alternative strategies on an account-by-account basis.
(h) Review the performance of loan recovery agents, and other third-party agents assigned recovery briefs with the objective of delisting non-performers.
(i) Consider and recommend collateral realization on defaulting accounts.
(j) Recommend for EXCO or Board approval, waivers and concessions and propose amounts to be paid as full and final settlement by defaulting borrowers.
(k) Recommend interest suspension for non-performing accounts on a case-by-case basis.

Corporate Governance Report - continued

5. **Monthly Performance Review Committee:**
The Committee meets monthly or as necessary and has the following key objectives:

(a) Review the Bank's monthly performance.
(b) Monitor budget achievement.
(c) Assess the efficiency of resource deployment in the Bank.
(d) Review products' performance.
(e) Reappraise cost management initiatives.
(f) Develop and implement a framework for measuring performance in the Bank.
(g) Develop Key Performance Indicators (KPI) for business and support units.
(h) Determine the basis for rewards and consequence management.

6. **Operational Risk & Service Measurement Committee:**
The Operational Risk & Service Measurement Committee meets monthly or as necessary and oversees all matters related to operational risk and service delivery in the Bank. The Committee is charged with the following key responsibilities:

(a) Ensuring full implementation of the risk management framework approved by the Board of Directors.

(b) Monitoring the implementation of policies, processes and procedures for managing operational risk in all of the Bank's material products, activities, processes and systems.
(c) Ensuring that clear roles and responsibilities are defined for the management of operational risks throughout all levels of the Bank, including all Business and Support Units.
(d) Providing support to the Chief Risk Officer and Chief Compliance Officer to ensure that a culture of compliance is entrenched throughout the Bank.

7. **Sustainable Banking Governance Committee:**
The Sustainable Banking Governance Committee meets every two months and oversees implementation of the Sustainable Banking Policies and Guidance Notes. The Committee is responsible for the following:

(a) Oversee the implementation of Environmental and Social Management Systems.
(b) Oversee the implementation and management of the Bank's environmental and social footprints on:

(i) Energy and water conservation.
(ii) Waste management.
(iii) Sustainable procurement.
(iv) Stakeholder engagement.

(c) Oversee the implementation of other sustainability issues in the Bank as it relates to:

(i) Promotion of equality of opportunity and diversity.
(ii) Occupational health and safety.
(iii) Grievance mechanism and related issues.
(iv) Financial inclusion and literacy.
(v) Corporate Social Responsibility.
(vi) Collaborative partnerships.
(vii) Capacity building.

(d) Review the Bank's progress on environmental and social performance indices.
(e) Review and advise the Board on the progress of the Bank's initiatives.

Corporate Governance Report - continued

8. ***Information Technology (IT) Steering Committee***

The Committee advises Management on technology trends in the banking industry and ensures that IT initiatives and proposed projects help in achieving the strategic goals and objectives of the Bank. The Committee also provides leadership in information security and protection of the Bank's Information assets. The Committee prioritizes the development of information security and Information Technology (IT) initiatives, programmes, projects and policies.

The Committee is comprised of the Executive Director, Chief Operations and Information Officer (who serves as the Chairman), the Chief Compliance Officer, Chief Technology Officer, Divisional Head, Operations, Chief Human Resources Officer and the Chief Information Security Officer (CISO). Other Committee members include key Divisional and Unit Heads.

The responsibilities of the Committee include the following:

(a) Steer the Bank's business to profitability through technology;
(b) Reviews, monitors and enforces implementation of the Bank's IT strategy;
(c) Reviews short to mid-term trends and makes recommendations
(d) Harmonizes all IT related budget entries from other Departments with the provisions in the IT budget;

(e) Serves as support and advisory to the Executive Committee on IT and Information Security matters;
(f) Assesses the criticality of IT spend;
(g) Reviews and monitors IT budget implementation;
(h) Serves as a governing council/steering committee for Information Security Management System;
(i) Resolves issues or conflicts that, if unresolved, would jeopardize the successful completion of approved IT initiatives and programmes;
(j) Makes recommendations on resources required to implement proposed IT initiatives and programmes;

(k) Reviews the performance and effectiveness of IT activities; and
(l) Ensures IT leadership meets on a quarterly basis with the Bank's user groups to further align IT initiatives with business needs.

9. **Information Security Steering Committee**

The Central Bank of Nigeria (CBN) through its issuance of the Risk-Based Cyber Security Framework mandated Deposit Money Banks (DMBs) to establish cyber security governance and ensure it becomes an integral part of the organization's Corporate Governance.
The Information Security Steering Committee (ISSC) is a key instrument of this governance function. The existence of a strategic governing body is important in ensuring the alignment of cyber security investments and initiatives with business strategy and technology requirements.

The Information Security Steering Committee is chaired by the Managing Director/CEO and the Committee members include the Executive Director - Chief Operations and Information Officer, Chief Compliance Officer, Executive Director, Chief Risk Officer, Chief Technology Officer, Chief Financial Officer, and Chief Information Security Officer, who acts as the Secretary to the Committee. Other members include Divisional Heads of key divisions and Heads of various IT units.

Corporate Governance Report - continued

The role of the Committee includes the following:

(a) Provide strategic direction and governance on cybersecurity to the Bank by ensuring that effective cyber security policies, procedures and initiatives are established and updated in line with the changing risk landscape.
(b) Ensure alignment of cyber security projects with technology and corporate strategy.
(c) Resolve strategic level issues and risks in relation to cyber security which may arise from existing or new/proposed business initiatives.
(d) Evaluate, approve, and sponsor institution-wide security investments; Review the justifications and business cases for security investments and ensure that proposed security projects are aligned with the Bank's strategic direction.
(e) Ensure adequate investment prioritization and cyber risk management.
(f) In consultation with senior management, oversee regulatory compliance with respect to cyber security, to ensure that the Bank complies with all extant regulations to avoid the risk of non-compliance.

(g) Approve or reject changes to projects with high impact on timelines and budget.
(h) Assess the progress on projects and provide relevant reports on same to executive management.
(i) Advise and provide guidance on issues relating to cyber security projects.
(j) Review and approve final project deliverables.
(k) Manage the relationship between the cyber security function and respective business units.

Note
Management Committee Meetings are held weekly, fortnightly, monthly or quarterly per the terms of reference of each Committee or as the need arises. The Bank diligently submits its financial reports quarterly, half yearly and annually to the Securities & Exchange Commission and Nigerian Exchange Group for publication following approval by the Central Bank of Nigeria as appropriate.

Governance and Management

Fidelity has adopted various policies which define acceptable standards of behavior in the organization.

These include the following:

(i) Code of Business Conduct and Ethics Policy.
(ii) Directors Code of Conduct Policy.
(iii) Insider Trading Policy.
(iv) Whistle-blowing Policy.
(v) Remuneration Policy.
(vi) Shareholders' Complaints Management Policy.

Code of Business Conduct and Ethics Policy

The Code of Business Conduct and Ethics ("the Code") is an expression of the Bank's core values and represents a framework for guidance in decision-making. The main objectives of the Policy are to:

(i) Demonstrate the Bank's commitment to the highest standards of ethics and business conduct; and
(ii) Govern the Bank's relationship with its stakeholders including employees, customers, suppliers, Shareholders, competitors, the communities in which it operates and the relationship with each other as employees.

The Code requires all Directors, significant Shareholders, officers and employees of the Bank to avoid taking actions or placing themselves in positions that create or could create the appearance of conflict of interest, corruption or impropriety. The Bank must also protect the privacy of its customers' financial and other personal information. The Code provides basic guidelines of business practice, professional and personal conduct that the Bank expects all employees to adopt and uphold as members of Team Fidelity.

Corporate Governance Report - continued

Employees are also expected to comply with other policies referred to in the Code, additional policies that apply to their specific job functions, and the spirit and letter of all laws and regulations. At the beginning of each year and upon resumption, all employees are required to formally disclose that they have no material or any other conflicting interest as well as declare their interest in any account, customer, transaction or person who is a party to a contract or proposed contract with the Bank.

The Chief Audit Executive has primary responsibility for enforcing the Code subject to the supervision of the Ethics Committee and the Board Audit Committee. The execution of disciplinary actions and sanctions for infringement of the Code are guided by the Bank's disciplinary procedures as documented in the Staff Handbook.

Directors' Code of Conduct Policy
At the Board level, the Board of Directors adopted the Directors' Code of Conduct Policy, which sets out ethical standards that all Directors are expected to comply with. Directors have a duty to oversee the management of the business and affairs of the Bank. In carrying out this duty, Directors are required to always act honestly, in good faith and in the best interest of the Bank. All Directors are expected to execute an annual attestation to adhere strictly to the Code and formally declare their interest, if any, in any contract or transaction to which the Bank is a party.

Insider Trading Policy (Dealing in the Company's Securities)
The Bank has a formal Insider Trading Policy that prohibits all "Insiders" and their "Connected Persons" (as defined in the Policy) from dealing in the Company's securities at certain times. The provisions of the Policy are based on terms no less exacting than the standards defined in the Listing Rules of the Nigerian Stock Exchange. The objectives of the Policy include the following:

(i) Promote compliance with the provisions of the Investments and Securities Act (ISA) 2007, the Securities and Exchange Commission's Code of Corporate Governance and the Listing Rules of the Nigerian Exchange Group;

(ii) Ensure that all persons to whom the policy applies (affected persons), who possess material non-public information do not engage in insider trading or tipping.

(iii) Ensure that all the Bank's employees and Directors comply with utmost secrecy and confidentiality on all information which they receive as a result of their position in the Bank; and

(iv) Protect the Bank and its staff from reputational damage and penalties that may be imposed by regulators as a result of improper identification, disclosure and management of insider trading activities.

The Policy has been communicated to all persons to whom it is applicable including Employees, Directors and members of the Statutory Audit Committee. The Company Secretary periodically notifies affected persons of when trading in the Bank's securities is permitted (Open Periods) or prohibited (Blackout Periods).

The Bank has established a mechanism for monitoring compliance with the Policy and affected persons are required to notify the Company Secretary of transactions undertaken on their accounts in the Bank's securities.

Enquiries are also made to confirm the Directors compliance with the Policy and in event of non-compliance, the reasons for same and the remedial steps taken. In addition to being hosted on the Bank's website and SharePoint Portal (an internal web-based application), the Policy is circulated to all affected persons on a regular basis.

Whistle-blowing Policy
Fidelity Bank Plc requires all Employees, Directors, Vendors and other Stakeholders to always act with utmost fidelity and good faith in their dealings with the Bank and its stakeholders. The Bank's Whistle-Blowing Policy and Procedures therefore aim to strengthen its corporate governance and risk management architecture whilst enhancing value for all

Corporate Governance Report - continued

To this end, internal and external stakeholders are encouraged to report their concerns about any ostensibly unethical behaviour to enable the Bank investigate and address same appropriately.

The Bank recognizes the need for protection of whistle-blowers and takes all reasonable steps to protect their identity. The Bank also appreciates the importance of utmost confidentiality in these situations and has developed various anonymous channels for reporting unethical behaviour.

The Bank has provided the following reporting channels to ensure that all ethical issues can be reported to the Ethics Committee directly or anonymously, through the following media:

Email to ethicscommittee@fidelitybank.ng
Visit www.fidelitybank.ng/whistle-blowing
Call 08139843525

A policy statement on whistleblowing is available on the Bank's website along with a whistle-blowing form, to ease the reporting process. This can be accessed at:

https://www.fidelitybank.ng/whistle-blowing

The Board is responsible for implementation of the Policy and communication of same to stakeholders. To facilitate implementation of the Policy, the Bank has established an Ethics Committee comprised of staff drawn from key areas of the Bank including Operations, Legal, and Human Resources

The Ethics Committee is responsible for receiving and evaluating whistle-blowing reports, deciding the nature of the action to be taken, reviewing the report of any enquiry arising from a whistle-blowing report, providing feedback on the outcome of investigations to the whistle-blower (where the whistle-blower has provided a means of communicating with him/her).

The Ethics Committee also provides updates on whistle-blowing incidents to the Board Audit Committee on a quarterly basis, through the Chief Audit Executive. In addition, the Chief Compliance Officer renders periodic returns on whistle-blowing incidents to the Central Bank of Nigeria and Nigeria Deposit Insurance Corporation as appropriate.

Staff Remuneration Policy

The Bank's remuneration policy is designed to establish a framework that is consistent with the Bank's scale and scope of operations and is aligned with leading corporate governance practices. The policy reflects the desire to sustain long-term value creation for shareholders and focuses on ensuring sound corporate governance.

The policy aims to motivate the workforce and enable the Bank attract and retain employees with integrity, ability, experience and skills to deliver the Bank's strategy; Promote compliance with global regulatory trends and governance requirements, with emphasis on long-term sustainability; Align individual rewards with the Bank's performance, the interests of its shareholders, and a prudent approach to risk management, whilst ensuring that remuneration arrangements are equitable, transparent, well communicated, easily understood, aligned with the interest of shareholders and adequately disclosed.

The guiding principles that underpin the Staff Remuneration Policy include the following:

(i) Remuneration and reward strategies are set at levels that enable the Bank to attract, motivate and retain employees with the skills required to efficiently manage the operations and growth of the business;

(ii) Performance goals are aligned to shareholders' interests and ensures that the Board makes prudent decisions in deploying the Bank's resources to generate sustainable growth;

(iii) The Bank's performance-based incentive programs are aligned to individual performance and the overall performance of the Bank. This approach drives a high-performance culture that rewards individual contributions and the achievement of business results that enhance shareholder value.

Corporate Governance Report - continued

The Bank complies with the provisions of the Pension Reform Act, 2014 (the Act) and continues to meet its statutory obligations to all employees as provided in the Act.

Shareholders' Complaints Management Policy
The objectives of the Policy include:

(i) Ensure compliance with the provisions of the SEC Rules relating to Complaints Management Framework, the Rules and Regulations made pursuant to the ISA, the rules and regulations of Securities Exchanges and guidelines of public companies/ recognized trade associations as well as other applicable regulatory requirements.

(ii) Handle complaints by Shareholders, Stakeholders, and Customers in relation to Fidelity Bank's shares.
(iii) Provide an avenue for shareholder communication and feedback.
(iv) Recognize, promote and protect shareholders' rights, including the right to comment and provide feedback on service.
(v) Provide an efficient, fair and accessible framework for resolving shareholders' complaints and feedback to improve service delivery.
(vi) Inform shareholders on the shareholder feedback handling processes.
(vii) Establish a framework to guard against trade manipulation, accounting frauds, Ponzi schemes and such other complaints as may be determined by SEC from time to time.
(viii) Establish and maintain electronic complaints register and provide information on a quarterly basis to the NGX in line with regulations.
(ix) Protect the Bank from sanctions from regulatory bodies and ensure strict compliance by the responsible parties.

Gender Diversity
Fidelity Bank is an equal opportunity employer and is committed to promoting gender diversity in the workplace. The Bank recognizes that women have different skill sets, viewpoints, ideas and insights which will enable the Bank serve a diverse customer base more effectively.

In accordance with the CBN Code of Corporate Governance, frauds and forgeries recorded in the period ended 30 June 2024 were as follows:

Fraud and Forgeries	June 2024	December 2023
Number of Fraud Incidents	1,156	3,079
Amount Involved (Naira)	457,707,057	3,826,666,643
Amount Involved (US Dollar)	12,991	15,707
Actual/Expected Loss (Euros)	0	0
Actual/Expected Loss (Naira)	20,243,505	2,094,761,450
Actual/Expected Loss (US Dollar)	0	200
Actual/Expected Loss (Euros)	0	0

Governance And Compliance
The Chief Compliance Officer of the Bank is charged with the responsibility of monitoring the Bank's compliance with all applicable legislation including the Code of Corporate Governance issued by the Central Bank of Nigeria. The Chief Compliance Officer and the Company Secretary submit periodic returns on the various governance Codes to the Central Bank, Nigerian Exchange Group, Securities & Exchange Commission and Nigeria Deposit Insurance Corporation as appropriate.

Foreign Subsidiary Governance
As of June 30, 2024, the Bank had one (1) wholly owned subsidiary, FidBank UK Limited. The activities of the subsidiary are monitored at the Group level to ensure operational efficiency, achievement of performance objectives and alignment of strategy/processes/controls within the Group without prejudice to applicable regulations in each jurisdiction. The framework for this includes ensuring the Bank has effective representation on the Board of the subsidiary and regular meetings of the Board and Board Committees of the Subsidiary.

Corporate Governance Report - continued

Clawback Policy

In accordance with the provisions of the Nigeria Code of Corporate Governance issued by the Financial Reporting Council of Nigeria, Fidelity Bank has adopted a formal Clawback Policy which allows the Board to require, in specific situations, the reimbursement of short term or long-term variable pay benefits, pay-out or gain received by a Covered Person that is later found to be underserved, excessive or wrongfully paid. The key objectives of the policy include:

(i) To enable the Bank recover from any current or former Covered Persons, any incentive-based compensation paid or payable, that was determined, in whole or in part, based on any financial or operating results of Fidelity Bank, and which turns out to have been erroneously or excessively awarded to the Covered Persons, due to material noncompliance with any accounting or financial reporting requirement under applicable laws or wrongful act committed.

(ii) Promote compliance with global regulatory trends and corporate governance requirements, with emphasis on long-term sustainability.

(iii) Align Covered Persons' remuneration with the Bank's performance, shareholders' interests, and a prudent approac to risk management, while avoiding any excessive or erroneous pay out. There was no incident of clawback during the reporting period.

The Company Secretary

The Company Secretary plays a key role in ensuring that Board procedures are complied with and that Board members are aware of and provided with guidance as to their duties and responsibilities. The Company Secretary is responsible for the following

(i) Ensuring that the applicable rules and regulations for the conduct of the affairs of the Board are complied with.

(ii) Provision of facilities associated with maintenance of the Board or otherwise required for its efficient operation.

(iii) Provide a central source of guidance and advice to the Board on matters of ethics and implementation of the Codes of Corporate Governance, as well as providing administrative support to the Board and Board Committees

(iv) Coordinating the orientation, induction and training of new Directors, and the continuous training of existing Directors.

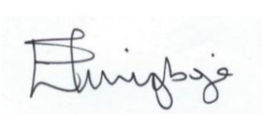
(v) Assist the Chairman and Managing Director/CEO to formulate the annual Board Plan and administration of other strategic issues at the Board level.

(vi) Organize Board/General meetings and properly record and communicate the decisions for implementation.

(vii) Update the Board and Management on contemporary developments in corporate governance.

The Company Secretary also acts as a liaison between the Shareholders, the Bank's Registrars and the Investor Relations Desk and ensures timely communication with Shareholders in relation to issuance of shares, calls on shares, replacement of share certificates, managing of shareholding accounts, dividend payment, and production and distribution of annual reports amongst others. The Board is responsible for the appointment and disengagement of the Company Secretary.

By order of the Board.



Ezinwa Unuigboje
Company Secretary

INDEPENDENT AUDITOR'S REPORT
To the Shareholders of Fidelity Bank Plc
Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the consolidated and separate financial statements of Fidelity Bank Plc and its subsidiary (the Group and Company) set out on pages 43 to 186, which comprise the consolidated and separate statements of financial position as at 30 June 2024, and the consolidated and separate statements of profit or loss and other comprehensive income, the consolidated and separate statements of changes in equity and the consolidated and separate statements of cash flows for the period then ended, the notes to the consolidated and separate financial statements, including a summary of material accounting policy information.

In our opinion, the consolidated and separate financial statements give a true and fair view of the consolidated and separate financial position of Fidelity Bank Plc as at 30 June 2024, and its consolidated and separate financial performance and consolidated and separate cash flows for the period then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, the requirements of the Companies and Allied Matters Act 2020, Banks and Other Financial Institutions Act Cap B3 LFN 2020 and Financial Reporting Council of Nigeria (Amendment) Act 2023.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the consolidated and separate Financial Statements section of our report. We are independent of the Group and the Company in accordance with the requirements of the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA code) and other independence requirements applicable to performing audits of consolidated and separate financial statements in Nigeria. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and other ethical requirements that are relevant to our audit of consolidated and separate Financial Statements in Nigeria.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Deloitte.

Key Audit Matter	How the matter was addressed in the audit
Impairment of loans and advances (Consolidated and Separate)	
Loans and advances make up a significant portion of the total assets of the Group. As of 30 June 2024, gross loans and advances for the Group were N3.93 trillion, Bank: N3.89 trillion comprising local and foreign denominated loans against which total loan impairment for the Group is N178.44 billion, Bank: N178.03 billion was recorded, resulting in a net loan balance of N3.752 trillion for the Group, Bank: N3.715 trillion. This value represents 48% of the total assets as at the reporting date. The basis of the impairment on loans and advances is summarized in the accounting policies (2.4) to the audited consolidated and separate financial statements. The Directors have assessed the bank's loan loss impairment using the expected credit loss (ECL) model, in accordance with the provisions of IFRS 9 - Financial Instruments, disclosed in notes 3.2, 8 and 22. The Directors exercised significant judgement and assumptions in the process of determining the value recorded as loan and advance impairment. Some of these judgements and assumptions include: (i) Segmentation of loans and advances into portfolios with similar characteristics (ii) Using a combination of payment history, credit ratings and prudential classification used to determine whether a significant increase in credit risk (SICR) occurred since origination that requires migration from stage 1 to stages 2 and default that require movement to stage 3. (iii) Estimation of probability of default (PD), loss given default (LGD (including realization of the collateral) exposure at default (EAD), (iv) Assumptions and weightings applied to the macro-economic variables used as part of the forward-looking information. (v). The credit conversion factor (CCF) used when determining the required impairment on off-balance sheet exposures such as undrawn facilities and guarantees.	We focused our testing of the impairment on loans and advances to customers on the key assumptions and inputs made by Directors. Specifically, with the assistance of our technology and credit specialists, our audit procedures included the following: (a) Through discussion and inspection, we established an understanding of the processes, systems, models, data, and assumptions used, and the governance of all these during the origination and collection of loans and advances, and the subsequent impairment thereof as required by IFRS when there is a SICR. (b) We tested the design and operating effectiveness of the key General and IT Controls (GITC) on the loan impairment system, automated controls around the timely identification and determination of the impairment of loans and advances, including data inputs, and the interfaces between the core banking system and the loan impairment system. (c) We tested a sample of loans and advances (including loans that had not been identified by management as potentially impaired) to form our own assessment as to whether impairment events had occurred and had been identified in a timely manner. We challenged management's judgements on loans that were not reported as being impaired in sectors that are currently experiencing difficult economic and market conditions, such as the oil and gas and power sectors. (d) We tested whether the loans and advances, undrawn facilities and historical payment data used in the models were accurate and assessed and challenged whether the modelling assumptions applied by management in their models (such as portfolio segmentation, PD, LGD, EAD, SICR, CCR, default, write off, recovery, cure, ratings, collateral value and timing, the effective interest rate, treatment of foreign denominated loans, modifications, and the multiple economic scenarios and probability

Key Audit Matter	How the matter was addressed in the audit
(vi) The accounting treatment applied when loan terms are modified. In view of these above areas where significant estimates and judgements were made and in view of the size of loans and advances portfolio, the audit of loan impairment is considered a key audit matter.	weights used for the forward-looking assumptions) were reasonable in light of the requirements of the applicable financial reporting standards, the bank's own historical experience, the economic climate, the current operational processes as well as our own knowledge of practices used by other similar banks (e) We extracted the required data from the bank's modelling system, determined our own assumptions, and recalculated the impairment for all portfolios using our own model. We compared our results with those of management, to assess whether there was any indication of error or management bias. Where a significant difference occurred, management revisited their own models and assumptions or appropriately challenged ours. (f) We selected a sample of the individually significant loans, established the loan, collateral and payment terms and actual performance for each of these and assessed whether the staging and the impairment applied was reasonable. (g) We reviewed the disclosures in the financial statements for reasonableness and compliance with the requirements of IFRS 7. The assumptions and judgment applied by the directors in assessing the required level of impairment of loans and advances support the related disclosures in notes 2.4, 3.2, 8 and 22 to the annual financial statements.

	How the matter was addressed in the audit
Valuation of goodwill (Consolidated) Goodwill carrying value was N14.220 billion in the consolidated financial position as of 30 June 2024. Management has developed a valuation model to test if the goodwill is impaired by using the higher of the discounted cash flows and the fair value less cost of disposals (FVLCOD) for the significant Cash Generating Unit (CGUs) to which the goodwill relates. In line with the requirements of the applicable accounting standard, IAS 36, *Impairment of Assets,* management conducts annual impairment tests to assess the recoverability of the carrying value of goodwill. With respect to the discounted cash flow models. As disclosed in note 21, there are a number of key sensitive judgements adopted by management in determining the inputs into these models which include: • Revenue growth • Operating margins • The discount rates applied to the projected future cash flows. For the FVLCOD method, some of the assumptions underlying the valuation includes: • Comparable peers • Discount for lack of marketability Based on the judgements underlying some of the key assumptions, the impairment test of this asset is considered to be a key audit matter.	We focused our testing of the impairment of goodwill by first obtaining an understanding of the business processes and relevant controls used in the impairment assessment. We also reviewed the key assumptions made by management Our audit procedures included: (a) Engaged our internal specialists to assist with: – Considered the appropriateness of the valuation methodologies adopted for the purpose of the impairment test- Value-in-use (VIU) and fair value less cost of disposal (FVLCOD). Although Management compared the higher of VIU to fair value less cost sale to the carrying value of the CGU, however with respect to the VIU method, we performed the procedures below. – Validated the assumptions used to calculate the discount rates, projected cash flows and recalculating these rates. (b) Analysed the future projected cash flows used in the models to determine whether they are reasonable and supportable given the current macroeconomic climate and expected future performance of the Cash Generating Unit. (c) Subjected the key assumptions to sensitivity analysis. (d) With respect to the FVLCOD method, we performed the following: – Reviewed the appropriateness of the performance measure and multiple applied in the fair value less cost of disposal computation (guideline public companies methodology – Evaluated and challenged the basis of Discount for lack of marketability (DLOM) used by management for appropriateness.

	(e) Checked the mathematical accuracy of the calculations and all relevant inputs into the impairment assessment. Based on the above audit procedures and others, we found that the assumptions used by management were appropriate and reasonable.
Purchase Price Allocation and determination of intangible assets arising on business acquisition – FidBank UK (Consolidated) In 2023, Fidelity Bank Plc concluded its acquisition of 100% interest in FidBank UK Limited (formerly-Union Bank UK Plc.), for a purchase consideration of $48.2 million dollars as disclosed in note 2.1.2. The identification, measurement and valuation of the assets and liabilities acquired, in line with the requirements of IFRS 3, requires significant amount of judgement, assumptions, estimates and other macro-economic considerations which makes the accounting of the transaction complex. The Purchase Price Allocation (PPA) in respect of the acquisition was conducted by the Directors and the following intangible assets from the acquisition were identified in line with the requirements of the IFRS 3: ✓ Core deposits intangibles (CDI) ✓ Customer relationships; & ✓ Computer software and databases An external consultant was employed by the Directors to carry out the valuation of the identified intangible assets. The following valuation methods were adopted: o Multi period excess earnings; & o Cost savings method Based on the level of judgement, assumptions and estimates involved in the assessment of the transaction and as this is a single material transaction that occurred during the year, we have determined that this is considered key audit matter in the consolidated financial statements.	We obtained and assessed the reasonableness of the Directors' determination of the fair value of the assets acquired. Together with the assistance of our independent internal financial advisory specialists, we performed the following audit procedures: (a) Evaluated the assumptions, judgement and methodologies applied by the Directors in the fair valuation of the identified intangible assets for reasonableness. (b) Assessed the basis for the identification of the intangible assets – Core deposits intangibles (CDI), Customer relationships, and Computer software and databases from the acquisition of FidBank UK Limited. (c) Obtained and reviewed the report issued by the consultant appointed by Directors. This was challenged by our independent experts including the assumptions and judgement applied in the fair valuation of the intangible assets. (d) We confirmed and recalculated the results provided by the management and ensure this is in line with the requirements of IFRS 3. (e) Confirmed and agreed the figures in the report to the financial statements. We evaluated the assumptions used by management as prescribed by relevant accounting standards and market best practices. We considered the disclosures in the consolidated financial statements reasonable and in line with the requirements of the accounting standards.

Deloitte.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Fidelity Bank Plc Annual Report and Financial Statements for the period ended 30 June 2024", which includes the Directors' Report, the Audit Committee's Report, the Company Secretary's Report , the Report of the External Consultants on the Performance of the Board of Directors, the Statement Of Corporate Responsibility for the Preparation of the Financial Statements, and Other National Disclosures as required by the Financial Reporting Council of Nigeria which we obtained prior to the date of this report. The other information does not include the consolidated and separate financial statements and our auditor's report thereon.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Consolidated and Separate Financial Statements

The directors are responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with IFRS standards as issued by the International Accounting Standards Board, the requirements of the Companies and Allied Matters Act 2020, Banks and Other Financial Institutions Act Cap B3 LFN 2020, the Financial Reporting Council of Nigeria (Amendment) Act 2023 and for such internal control as the directors determine is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and / or the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and / or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee and directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the Fifth Schedule of Companies and Allied Matters Act we expressly state that:

i) We have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit.
ii) The Group and the Company has kept proper books of account, so far as appears from our examination of those books.
iii) The Group and the Company's financial position and its statement of profit or loss and other comprehensive income are in agreement with the books of account and returns.

In compliance with the Banks and Other Financial Institutions Act (BOFIA) 2020 and circulars issued by Central Bank of Nigeria, we confirm that:

Deloitte.

i) Related party transactions and balances are disclosed in Note 38 of the consolidated and separate financial statements in compliance with Central Bank of Nigeria circular BSD/1/2004.

ii) Returns on customers' complaints are disclosed in Note 41.2 to the consolidated and separate financial statements in compliance with Central Bank of Nigeria circular PDR/DIR/CIR/01/20.

iii) As stated in Note 41.1 to the consolidated and separate financial statements, the Bank paid penalties for contraventions of certain sections of the Banks and Other Financial Institutions Act (BOFIA) 2020 and relevant Central Bank of Nigeria Circulars during the period ended 30 June 2024.

The accompanying notes to the financial statements are an integral part of these financial statements.

Notes To The Financial Statements

1. Corporate Information

These financial statements are for Fidelity Bank Plc (the "Bank"), a company incorporated in Nigeria on 19 November 1987.The registered office address of the Bank is at Fidelity Place, 1 Fidelity Bank Close Off Kofo Abayomi Street, Victoria-Island, Lagos, Nigeria.

The Bank completed its acquisition of its subsidiary, Fidelity Bank UK Limited (former Union Bank UK Plc) on 26 July 2023. The financial result of the subsidiary has been consolidated into these financial statements.

The principal activity of the Bank is the provision of banking and other financial services to corporate and individual customers. Fidelity Bank Group provides a full range of financial services including investment, commercial and retail banking.

2. Summary of material accounting policies

2.1 Introduction to summary of accounting policies
The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated.

2.1.1 Basis of Preparation
The Group's financial statements for the period ended 30 June 2024 have been prepared in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board ("IASB") and in the manner required by the Companies and Allied Matters Act of Nigeria , the Financial Reporting Council Act of Nigeria , Banks and Other Financial Institutions Act of Nigeria and relevant Central Bank of Nigeria Circulars, Additional information required by national regulations is included where appropriate.

The financial statements comprise the statement of profit or loss and other comprehensive income, the statement of financial position, the statement of changes in equity, statement of cashflows, significant accounting policies and the notes to the financial statements.

The financial statements have been prepared in accordance with the going concern principle under the historical cost convention, except for financial assets and financial liabilities measured at fair value.

The financial statements are presented in Naira, which is the Group's presentation currency. The figures shown in the financial statements are stated in Naira millions.

2.1.2 Changes in accounting policies and disclosures

New standards, amendments and interpretations adopted.
The financial statements are prepared in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standard Board (IASB) and in the manner required by the Companies and Allied Matters Act of Nigeria, the Financial Reporting Council of Nigeria Act, the Banks and other Financial Institutions Act of Nigeria, and relevant Central Bank of Nigeria circulars. The same accounting policies and methods of computation are followed in the financial statements as compared with the most recent annual financial statements.

a IFRS 1 First-time Adoption of International Financial Reporting Standards (Subsidiary as a First-time Adopter)
The amendment provides additional relief to a subsidiary which becomes a first-time adopter later than its parent in respect of accounting for cumulative translation differences. As a result of the amendment, a subsidiary that uses the exemption in IFRS 1:D16(a) can now also elect to measure cumulative translation differences for all foreign operations at the carrying amount that would be included in the parent's consolidated financial statements, based on the parent's date of transition to IFRS Accounting Standards, if no adjustments were made for consolidation procedures and for the effects of the business combination in which the parent acquired the subsidiary. A similar election is available to an associate or joint venture that uses the exemption in IFRS 1:D16(a). All entities in the Group have since adopted International Financial Reporting Standards (IFRSs) , continuous to apply IFRS in the preparation of its financial Statement and are compliant .

Notes To The Financial Statements - continued

b IFRS 7 Investments in equity instruments designated at FVTOCI

The disclosures requirements in IFRS 7 in respect of investments in equity instruments designated at FVTOCI are amended. In particular, an entity is required to disclose the fair value gain or loss presented in OCI during the period, showing separately the fair value gain or loss that relates to investments derecognised in the period and the fair value gain or loss that relates to investments held at the end of the period. If an entity derecognises investments in equity instruments measured at FVTOCI during the reporting period, it is now required, under the amendments, to disclose any transfers of the cumulative gain or loss within equity during the reporting period related to the investments derecognised during that reporting period.

An entity is no longer required to disclose the reporting date fair value of each equity instruments designated at

Contractual terms that could change the timing or amount of contractual cash flows

The amendments introduce disclosure requirements for financial instruments that include contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or non-occurrence) of a contingent event that does not relate directly to changes in a basic lending risks and costs (such as the time value of money or credit risk). Disclosures include a qualitative description of the nature of the contingent event, quantitative information about the possible changes to contractual cash flows as well as the gross carrying amount of financial assets and the amortised cost of financial liabilities subject to those contractual terms. The entity is required to make these disclosures by class of financial assets measured at amortised cost or FVTOCI and by class of financial liabilities measured at amortised cost.

The amendments are effective for annual reporting periods beginning on or after 1 January 2026. Earlier application is permitted. If an entity elects to apply these amendments for an earlier period, it is required to either:

- apply all the amendments at the same time and disclose that fact or
- apply only the amendments to the classification of financial assets for that earlier period and disclose that fact.

c IFRS 9 Derecognition of a financial liability settled through electronic transfer.

The application guidance in IFRS 9 is amended to clarify the date of initial recognition or derecognition of financial assets and financial liabilities.

The existing application guidance states that a financial liability is derecognised at its settlement date, being the date on which the liability is extinguished because the obligation specified in the contract is discharged, cancelled or expires, or the liability otherwise qualifies for derecognition.

As an alternative to this requirement, the amendments permit an entity to deem a financial liability (or part of it) that will be settled in cash using an electronic payment system to be discharged before the settlement date if, and only if, the entity has initiated a payment instruction that has resulted in:

- the entity having NO practical ability to withdraw, stop or CANCEL the payment instruction
- the entity having no practical ability to access the cash to be used for settlement as a result of the payment instruction
- the settlement risk associated with the electronic payment system being insignificant.

An entity that elects to apply the derecognition alternative for financial liabilities is required to apply it to all settlements made through the same electronic payment system.

d IAS 8 (Amendment): Definition of Accounting Estimates

IAS 8 (Amendment): Definition of Accounting Estimates (effective for annual reporting periods beginning on or after 1 January 2023). The amendment replaces the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition,

Accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in the financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not the correction of an error. There was no impact on the Financial Statements from the adoption of this amendment.

Notes To The Financial Statements - continued

e IAS 12 Income Taxes - Deferred Tax (Pillar Two Model Rules)

IAS 12 clarifies that the Standard applies to income taxes arising from tax law enacted or substantively enacted to implement, the Pillar Two model rules published by the OECD, including tax law that implements qualified domestic minimum top up taxes described in those rules. The amendments introduce a temporary exception to the accounting requirements for deferred taxes in IAS 12, so that an entity would neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

f IFRS 16 - Leases : Lease Liability in a Sale and Leaseback

The amendments to IFRS 16 add subsequent measurement requirements for sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments require the seller-lessee to determine 'lease payments' or 'revised lease payments' such that the seller-lessee does not recognise a gain or loss that relates to the right of use retained by the seller-lessee, after the commencement date.

The amendments do not affect the gain or loss recognised by the seller-lessee relating to the partial or full termination of a lease. Without these new requirements, a seller-lessee may have recognised a gain on the right of use it retains solely because of a remeasurement of the lease liability (for example, following a lease modification or change in the lease term) applying the general requirements in IFRS 16. This could have been particularly the case in a leaseback that includes variable lease payments that do not depend on an index or rate.

As part of the amendments, the IASB amended an Illustrative Example in IFRS 16 and added a new example to illustrate the subsequent measurement of a right-of-use asset and lease liability in a sale and leaseback transaction with variable lease payments that do not depend on an index or rate. The illustrative examples also clarify that the liability, that arises from a sale and leaseback transaction that qualifies as a sale applying IFRS 15, is a lease liability.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024. Earlier application is permitted. If a seller-lessee applies the amendments for an earlier period, it is required to disclose that fact.

A seller-lessee applies the amendments retrospectively in accordance with IAS 8 to sale and leaseback transactions entered into after the date of initial application, which is defined as the beginning of the annual reporting period in which the entity first applied IFRS 16.

g IFRS 17 Insurance Contracts

IFRS 17 (Amendment): Initial Application of IFRS 17 and IFRS 9 – Comparative Information (effective for annual periods beginning on or after 1 January 2023). The amendment is a transition option relating to comparative information about financial assets presented on initial application of IFRS 17. The amendment is aimed at helping entities to avoid temporary accounting mismatches between financial assets and insurance contract liabilities, and therefore improve the usefulness of comparative information for the users of financial statements. The core of IFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

Notes To The Financial Statements - continued

The main features of the accounting model for insurance contracts are as follows:

- The measurement of the present value of future cash flows, incorporating an explicit risk adjustment, remeasured every reporting period (the fulfilment cash flows)
- A Contractual Service Margin (CSM) that is equal and opposite to any day one gain in the fulfilment cash flows of a group of contracts, representing the unearned profit of the insurance contracts to be recognised in profit or loss over the service period (i.e., coverage period)
- Certain changes in the expected present value of future cash flows are adjusted against the CSM and thereby recognised in profit or loss over the remaining contractual service period
- The effect of changes in discount rates will be reported in either profit or loss or other comprehensive income, determined by an accounting policy choice.
- The presentation of insurance revenue and insurance service expenses in the statement of comprehensive income based on the concept of services provided during the year under review.
- Amounts that are paid to a policyholder in all circumstances, regardless of whether an insured event happens (non-distinct investment components) are not presented in the income statement, but are recognised directly on the balance sheet.
- Insurance services results (earned revenue less incurred claims) are presented separately from the insurance finance income or expense
- Extensive disclosures to provide information on the recognised amounts from insurance contracts and the nature and extent of risks arising from these contracts

2.1.2 Basis of consolidation

i Business Combination

The accounting policies set out below have been consistently applied to all periods presented in these consolidated and separate financial statements. Business combinations are accounted for using the acquisition method as at the acquisition date, that is, when control is transferred to the Group. Consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Transaction costs are expensed as incurred.

The Consideration transferred does not include amounts related to the settlement of any relationships or transaction. Such amounts are generally recognized in profit or loss. Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured, and settlement is accounted for within equity. Other contingent consideration is measured at fair value at each reporting date and subsequent changes in fair value of the contingent consideration are recognized in profit or loss.

ii Non-controlling interest

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The Bank acquired 100% 0f its United Kingdom Subsidiary.

iii Subsidiaries

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising from investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the difference will not reverse in the foreseeable future.

Subsidiaries are entities controlled by the Group. The Group controls an entity if it is exposed to, or has rights to, variable returns from its involvement with the investee entity and has the ability to affect those returns through its power over the entity. The Group reassesses whether it has control and if there are changes to one or more of the elements of control. This includes circumstances in which protective rights held (e.g. those resulting from a lending relationship) become substantive and lead to the Group having power over an investee.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences; and until the date when control ceases

iv Fund management

The entities within the group manage and administer assets held in unit trusts and other investment vehicles on behalf of investors. The financial statements of these entities are not included in these consolidated financial statements except when the Group controls the entity.

v Loss of control

The Group assesses whether there is loss of control in a variety of ways which includes:

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and the other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

The amount recognised in profit or loss on the loss of control of a subsidiary is measured as the difference between:

From the Group's perspective, any loss of control of a subsidiary results in derecognition of the individual assets and liabilities of the subsidiary. On disposal, components of OCI related to the subsidiary's assets and liabilities are accounted for on the same basis as would be required if the individual assets and liabilities had been disposed of directly. As a result, amounts from the exercise are reclassified to profit or loss: (- exchange differences that were recognised in OCI; - changes in the fair value of financial assets at Fair value through other comprehensive income previously recognised in OCI; and - the effective portion of gains and losses on hedging instruments in a cash flow hedge previously recognised in OCI).

vi Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currency of Group entities at the spot exchange rates at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated using the functional currency at the spot exchange rate at that date. The foreign currrency gain or loss on monetary items is the difference between the amortized cost in the functional currrency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortized cost in the foreign currency translated at the spot exchange rate at the end of the reporting period.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the spot exchange rate at the date on which the fair value is determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated using the spot exchange rate at the date of the transaction.

Foreign currency differences arising on translation of monetary items are generally recognised in profit or loss. However, foreign currency differences arising from the translation of FVTOCI financial assets and monetary assets are recognised in Other Comprehensive Income (OCI).

Notes To The Financial Statements - continued

vii Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into naira at spot exchange rates at the reporting date. The income and expenses and other comprehensive income of foreign operations are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case, income and expenses are translated at spot exchange rates on the dates of the transactions.

Foreign exchange differences on translation of foreign operations are recognized in other comprehensive income and presented in the foreign currency translation reserve (translation reserve) in equity. However, if the foreign operation is a non-wholly owned subsidiary, then the relevant proportion of the translation differences is allocated to non-controlling interests.

When a foreign operation is disposed of such that control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign currency gains and losses arising from such items are considered to form part of a net investment in the foreign operation and are recognized in other comprehensive income and presented in the translation reserve in equity.

viii Determination of Goodwill

Fidelity Bank Plc completed the acquisition of the United Kingdom component on the 26th of July 2023 from the Union bank plc (A Nigerian Parent) at a value of $50,000,000.00 with provision for Net Asset Value adjustment between the Completion net assets value and the Planned net asset value on the Purchase considration which has now been completed in the sum of $1,800,000.00 based on the Sales Purchase Agreement. The purchase price is allocated to the various identified intangible assets acquired and the provisional accounting has now been completed resulting N7,469 million recognised in intangibles and deferred tax of N193.2 million. This is reallocated from the previously recognised goodwill and comparatives adjusted accordingly.. The Bank acquired 100% of its United Kingdom Subsidiary. Prior to the acquisition , the United Kingdom component did not have any legal suit that required settlement .

Core deposits

Relates to a stable deposit base that provides a low-cost source of funding (versus the alternative next funding in the market).

*** Details of Goodwill impairment testing result is presented in note 21.1-5

2.2 Income Taxation

The tax expense for the period comprises current and deferred tax. Tax is recognised in arriving at profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

i Current Income Tax

The current income tax charge is calculated on the basis of the applicable tax laws enacted or substantively enacted at the reporting date in the respective jurisdiction.

ii Deferred Income Tax

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising from investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxables entities where there is an intention to settle the balance on a net basis.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised and reviewed at each reporting date , reduced to the extent that it is no longer probable that the related tax benefit will be realised. The Group has applied caution by not recognising additional deferred tax assets which is not considered capable of recovery.

• IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction
IAS 12 (Amendments): Deferred Tax related to Assets and Liabilities arising from a Single Transaction (effective for annual reporting periods beginning on or after 1 January 2023). These amendments clarify and narrow the scope of the exemption provided by the IAS 12 "Income Taxes" standard allowing institutions to not recognise any deferred tax during the initial recognition of an asset and a liability. All leases and decommissioning obligations are excluded from the exemption scope for which companies recognise both an asset and a liability and will now have to recognise deferred taxes. From the date of first application of IFRS 16 "Leases", the Bank have considered the right of use assets and the lease-related liabilities as a single transaction. Consequently, on the initial recognition date, the amount of deferred tax asset offsets the amount of deferred tax liability. The net temporary differences resulting from later variations in the right of use assets and lease liabilities subsequently result in a deferred tax asset as of 1 January 2023 which is subject to the recoverability criteria of IAS 12 "Income Taxes".
There was no impact on the Financial Statements from the adoption of these amendments.

2.3 Accounting judgements, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities and the accompanying disclosures, as well as the disclosure of contingent liability about these assumptions and estimates that could result in outcome that requires a material adjustment to the carrying amount of assets and liabilities affected in future periods.

Management discusses with the Audit Committee the development, selection and disclosure of the Group's critical accounting policies and estimates, and the application of these policies and estimates.

Estimates and Assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances beyond the control of the Bank. Such changes are reflected in the assumptions when they occur.

Going Concern

Business continues to function well and largely uninterrupted. The Group continues to provide access to it's products and services for modern life which it has proven to be doing responsibly and efficiently in even challenging circumstances.

Uncertainties remain with doubts about the status of Russian- Ukrain and Isreal - Hamas War. However, the financial situation of the group remains healthy and it does not believe that the impact of the Isreal - Hamas war or Russian-Ukrain War will have any material adverse effect on our financial condition or liquidity. Therefore, based on the Group's liquidility and expected yearly cash outflow, the Group expects that it will be able to meet its financial obligations and therefore continues to adopt a going concern assumption as the basis for preparing its financial statements.

Allowances for credit losses

Measurement of the expected credit loss allowance

The measurement of the Expected Credit Loss (ECL) allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in Note 3, which also sets out key sensitivities of the ECL to changes in these elements.

Notes To The Financial Statements - continued

A number of Significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL;
- Establishing groups of similar financial assets for the purposes of measuring ECL.

The uncertainties caused by the volatility in macro economic variables required the Group to update the inputs and assumptions used for the determination of expected credit losses (“ECLs”) as at 30 June 2024. No futher update was done in the current year .

Determination of Collateral Value

Management monitors market value of collateral on a regular basis. Management uses its experienced judgement on independent opinion to adjust the fair value to reflect the current circumstances. The amount and collateral required depend on the assessment of credit risk of the counterpart.

In determining the collateral value, the Bank has considered potential impacts of the economic volatility as a result of Isreal - Hamas war as well the the impact of Russian/Ukrain war and elections within various relevant jurisdictions across the globe.

The Directors believe that the underlying assumptions are appropriate and that the Bank’s financial statements therefore present the financial position and results fairly. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in the notes.

Fair Value Measurement of Financial Instruments

When the fair values of financial assets and financial liabilities recorded in the statement ot financial position cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques including the discounted cash flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 3.5 for further disclosures.

The Group has considered potential impacts of the current economic volatility in determination of the reported fair value of the financial instruments and these are considered to represent management's best assessment based on observable information. Markets , however , remain volatile and the recorded amounts remain sensitive to market fluctuations.

2.3.1 Standards Issued, Amendments But Not Yet Effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group’s financial statements are disclosed below. The Bank intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

•IAS 1 (Amendments): Classification of liabilities as current or non-current

The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. The amendments also clarify that the classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services. The amendments are expected to be effective for annual periods beginning on or after 1 January 2024 with early adoption permitted.

•IAS 7 and IFRS 7 (Amendments) - Disclosures: Supplier Finance Arrangements

Disclosures: Supplier Finance Arrangements (effective for annual periods beginning on or after 1 January 2024). The amendments require companies to disclose information about their Supplier Finance Arrangements such as terms and conditions, carrying amount of financial liabilities that are part of such arrangements, ranges of payment due dates and liquidity risk information. The Group is examining the impact from the above amendments.

Notes To The Financial Statements - continued

2.3.1 Standards Issued, Amendments But Not Yet Effective- continued

IFRS 18 Presentation and Disclosure in Financial Statements:
IFRS 18 replaces IAS 1, carrying forward many of the requirements in IAS 1 unchanged and complementing them with new requirements. The standard introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss, provide disclosures on management-defined performance measures (MPMs) and improve aggregation & disaggregation. The standard also made some minor amendments to IAS 7 and IAS 33.
All entities are required to follow the same classification requirements. However, there are reporting modifications for entities that invest in assets as a main business activity (such as investment entities, investment property entities and insurers) and entities that provide financing to customers as a main business activity (such as banks.

IFRS 18 requires an entity to classify income and expenses included in profit or loss into one of the following categories:

i. Operating Category: This comprises all income and expenses included in the statement of profit or loss that are not classified in the investing, financing, income taxes or discontinued operations categories. It is the default category that includes, but not limited to, income and expenses from an entity's main business activities.

Income and expenses from other business activities, such as income and expenses from additional activities, are also classified in the operating category if those income and expenses do not meet the requirements to be classified in any of the other categories.

ii. Investing Category: This comprises income and expenses from:

- investments in associates, joint ventures, and unconsolidated subsidiaries
- cash and cash equivalents.
- other assets that generate a return individually and largely independently of the entity's other resources
- Income and expenses' classified in the investing category comprises:
- income generated by the assets
- income and expenses that arise from the initial and subsequent measurement of the assets, including on derecognition of the assets
- incremental expenses directly attributable to the acquisition and disposal of the assets (e.g. transaction costs and costs to sell the assets.

iii. Financing category: This includes income and expenses from liabilities arising from transactions that involve the raising of finance, whether the transaction involves only the raising of finance or not.

iv. Income taxes category: The income taxes category comprises:

- tax expense or tax income included in profit or loss applying IAS 12 Income Taxes
- any related foreign Exchange differences.

v. Discontinued operations category: The discontinued operations category comprises income and expenses from discontinued operations as defined in IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

IAS 7 - IFRS 18 causes amendments to IAS 7 Statement of Cashflows as follows.

- require all entities to use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities.
remove the presentation alternatives for cash flows related to interest and dividends paid and received as follows

  – for entities with no specified main business activities:

    * interest and dividends received will always be classified as cash flows from investing activities
    * interest and dividends paid will always be classified as cash flows from financing activities.

  – for entities that invest in assets or provide financing to customers as a main business activity, the entity is required to:

Notes To The Financial Statements - continued

* determine how to classify dividends received, interest received and interest paid in the statement of cash flows by referring to how , applying IFRS 18 - it classifies dividend income, interest income and interest expenses in the statement of profit or loss
* classify the total of each of these cash flows in a single category in the statement of cash flows (that is, either as operating, investing or financing activities)
* classify dividends paid as cash flows from financing activities.

to IAS 33 - IFRS 18 causes amendments to IAS 33 Earnings Per Share.
In addition to reporting basic and diluted earnings per share (EPS), entities are permitted by IAS 33 to disclose (in the notes only) additional EPS calculated based on any component of the statement of comprehensive income.
The amendments to IAS 33 permit an entity to disclose these additional EPS only if the numerator is either a total or subtotal identified in IFRS 18 or is an MPM.

An entity is required to apply IFRS 18 for annual reporting periods beginning on or after 1 January 2027. Earlier application is permitted. If an entity applies IFRS 18 for an earlier period, it is required to disclose that fact in the notes. The amendments to IAS 7 and IAS 33, as well as the revised IAS 8 and IFRS 7, become effective when an entity applies IFRS 18.

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
The amendments address the conflict between IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that the gain or loss resulting from the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture, is recognised in full. Any gain or loss resulting from the sale or contribution of assets that do not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture. The IASB has deferred the effective date of these amendments indefinitely, but an entity that early adopts the amendments must apply them prospectively. These amendments will currently have no impact on the financial statements of the Group.

Amendments to IAS 1 - Classification of Liabilities as Current or Non-current
In January 2020, the Board issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current.The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is in itself an equity instrument , would the terms of a liability not impact its classification.

Right to Defer Settlement
The Board decided that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date.

Existence at the end of the reporting period
The amendments also clarify that the requirement for the right to exist at the end of the reporting period applies regardless of whether the lender tests for compliance at that date or at a later date.

Management Expectations
IAS 1.75A has been added to clarify that the 'classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability for at least twelve months after the reporting period'. That is, management's intention to settle in the short run does not impact the classification. This applies even if settlement has occurred when the financial statements are authorised for issuance.

Amendments to IFRS 3 - Reference to the Conceptual Framework
In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to a previous version of the IASB's Conceptual Framework (the 1989 Framework) with a reference to the current version issued in March 2018 (the Conceptual Framework) without significantly changing its requirements.

Notes To The Financial Statements - continued

The amendments add an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 Provisions, Contingent Liabilities and Contingent Assets or IFRIC 21 Levies, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the Conceptual Framework, to determine whether a present obligation exists at the acquisition date.

At the same time, the amendments add a new paragraph to IFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

These amendments did not have any impact on the financial statements of the Group in the period ,

2.3.1 Standards Issued, Amendments But Not Yet Effective- continued

Amendments to IAS 16 - Property, Plant and Equipment: Proceeds before Intended Use
The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceed of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

These amendments did not have any impact on the financial statements of the Group in the period.

IFRS 16 Leases Illustrative Example accompanying - Lease incentives

The amendment removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying IFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying IFRS 16.

2.3.3 Foreign currency translation and transaction

(a) Functional and presentation currency
Items included in the financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency").

The financial statements are presented in Naira, which is the Group's presentation currency.

2.3.3 Foreign currency translation and transaction

(a) Functional and presentation currency
(b) Transactions and balances

Foreign currency transactions (i.e. transactions denominated, or that require settlement, in a currency other than the functional currency) are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured.

Monetary items denominated in foreign currency are translated with the closing rate as at the reporting date. Non-monetary items measured at historical cost denominated in a foreign currency are translated with the exchange rate as at the date of initial recognition; non-monetary items in a foreign currency that are measured at fair value are translated using the exchange rates at the date when the fair value was determined. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

2.3.3 Foreign currency translation and transaction-continued
In the case of changes in the fair value of monetary assets denominated in foreign currency classified as fair value through other comprehensive income (FVOCI), a distinction is made between translation differences resulting from changes in amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in the amortised cost are recognised in profit or loss, and other changes in the carrying amount, except impairment, are recognised in other comprehensive income.

Translation differences on non-monetary financial instruments, such as equities held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation differences on non-monetary financial instruments, such as equities classified as FVOCI financial assets, are included in other comprehensive income.

Notes To The Financial Statements - continued

2.4 Financial assets and liabilities (Policy applicable for financial instruments)

2.4.1 *Initial recognition*

The Group initially recognises loans and advances, deposits and debt securities issued on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the group becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, (for an item not at fair value through profit or loss), transaction costs that are directly attributable to its acquisition or issue. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Day 1 profit or loss

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in Net gains/(losses) from financial instruments. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Amortised cost and gross carrying amount

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance.

The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

Effective interest method

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset (i.e. its amortised cost before any impairment allowance) or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees and points paid or received that are integral to the effective interest rate, such as origination fees.

For purchased or originated credit-impaired (`POCI') financial assets — assets that are credit-impaired at initial recognition — the Bank calculates the credit-adjusted effective interest rate, which is calculated based on the amortised cost of the financial asset instead of its gross carrying amount and incorporates the impact of expected credit losses in estimated future cash flows.

When the Bank revises the estimates of future cash flows, the carrying amount of the respective financial assets or financial liability is adjusted to reflect the new estimate discounted using the original effective interest rate. Any changes are recognised in profit or loss.

Interest income

Interest income and expenses are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

• the gross carrying amount of the financial asset; or
• the amortised cost of the financial liability.

Notes To The Financial Statements - continued

When calculating the effective interest rate for financial instruments other than credit-impaired financial assets, the Group estimates future cash flows considering all contractual terms of the financial instrument, but not expected credit losses. For originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated using estimated future cash flows including expected credit losses.

The calculation of the effective interest rate includes transaction costs and fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

a) Debt Instruments

The classification and subsequent measurement of debt instruments depend on the Group’s business model for managing the financial assets and the contractual terms of the cash flows. Based on these factors, the Group classifies its debt instruments into one of the following measurement categories:

Amortised Cost: Financial assets that are held within a business model whose objective is collection of contractual cash flows and where such cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss due to impairment or upon derecognition of a debt investment that is subsequently measured at amortised cost is recognised in profit or loss. Interest income from these financial assets is included in "Interest and similar income" using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Financial assets that are held within a business model whose objective is achieved both by collection of contractual cash flows and by selling the assets, where those cash flows represent solely payments of principal and interest, and are not designated at fair value through profit or loss, are measured at fair value through other comprehensive income. Movements in the carrying amount are taken through OCI, except for recognition of impairment gains and losses, interest revenue and foreign exchange gains and losses on the instrument’s amortised cost which are recognised in profit or loss.

When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in "Other operating income". Interest income from these financial assets is included in "Interest and similar income" using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented in the profit or loss statement within “Net gains/(losses) from financial instruments classified as held for trading” in the period in which it arises. Interest income from these financial assets is included in "Interest and similar income".

Business Model Assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected.
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing financial assets is achieved and how cash flows are realized.

Notes To The Financial Statements - continued

Solely Payments of Principal and Interest (SPPI) Assessment
Principal is defined as the fair value of the financial asset on initial recognition. Interest is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money - e.g. periodical rate of interest

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest.

Reclassifications
The Group reclassifies debt investments when and only when its business model for managing those assets changes.

Modifications
If the terms of a financial asset are modified, the Group evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Group recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss.

b) Equity Instruments
The Group subsequently measures all Quoted and Unquoted equity investments at fair value through other comprehensive income. Where the Group has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognised in profit or loss as other income when the right to receive payments is established. These investments are held for strategic purposes rather than for trading purposes .See note 24.3

c) Derivative Financial Instruments
Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at their fair value.

The Group uses widely recognised valuation models for determining the fair value of common and simple financial instruments, such as interest rate and currency swaps that use only observable market data and require little management judgement and estimation. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded derivatives and simple OTC derivatives such as interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determining fair values. Availability of observable markets prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

d) Non-derivative financial assets

The Group revised its internal treasury and risk management systems to support the transition to SOFR. During the course of this transition, the Group's IBOR Transition team established policies for amending the interbank offered rates on existing floating-rate loan portfolio indexed to IBORs. Loan products are amended in a uniform way, while syndicated products, are amended in bilateral negotiations with syndicated loan partners.

e) Non-derivative financial Liabilities

The Bank has floating-rate liabilities indexed to USD LIBOR. The IBOR Transition team and the treasury team discussed with the counterparties of our financial liabilities and amended the contractual terms in response to IBOR reform.

2.4.3 Impairment of Financial Assets

Overview

The Group assesses on a forward looking basis the expected credit losses (ECL) associated with its loans and other debt financial assets not held at FVPL, together with loan commitments and financial guarantee contracts, in this section all referred to as 'financial instruments'. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition.

The measurement of ECL reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes, time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions. Equity instruments are not subject to impairment under IFRS 9.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL). The 12 months ECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12m ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Group has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering if it is 30 days past due. Based on the above process, it groups its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1: When loans are first recognised, the Group recognises an allowance based on 12 months expected credit losses (12m ECLs). Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Group records an allowance for the lifetime expected credit losses (LTECLs). Stage 2 loans also include facilities, where the credit risk has improved and the loan has been reclassified from Stage 3.

Stage 3: These are loans considered as credit-impaired.The group records an allowance for the LTECLs.

POCI: Purchased or originated credit impaired (POCI) assets are financial assets that are credit impaired on initial recognition. POCI assets are recorded at fair value at original recognition and interest income is subsequently recognised based on a credit-adjusted EIR. ECLs are only recognised or released to the extent that there is a subsequent change in the expected credit losses

The calculation of ECLs

The Bank calculates ECLs based on a multiple scenario to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

Notes To The Financial Statements - continued

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

PD: The Probability of Default is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio. The concept of PDs is further explained in Note 3.2.4.

EAD: The Exposure at Default is an estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities, and accrued interest from missed payments. The EAD is further explained in Note 3.2.4 (c).

LGD: The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral. It is usually expressed as a percentage of the EAD. The LGD is further explained in Note 3.2.4 (c).

When estimating the ECLs, the Group considers multiple scenario to measure the expected cash shortfalls, discounted at an approximation to the EIR. When relevant, the assessment also incorporates how defaulted loans are expected to be recovered, including the probability that the loans will cure and the value of collateral or the amount that might be received for selling the asset.

The maximum period for which the credit losses are determined is the contractual life of a financial instrument unless the Group has the legal right to call it earlier, with the exception of revolving facilities which could extend beyond the contractual life.

Provisions for ECLs for undrawn loan commitments are assessed as set out in Note 2.20. The calculation of ECLs (including the ECLs related to the undrawn element) for revolving facilities is explained in Note 3.2.4 (c).

The mechanics of the ECL method are summarised below:

Stage 1

- The 12m ECL is calculated as the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. The Group calculates the 12mECL allowance based on the expectation of a default occurring in the 12 months following the reporting date.
- These expected 12-month default probabilities are applied to a forecast EAD and multiplied by the expected LGD and discounted by an approximation to the original EIR.

Stage 2

When a financial instrument has shown a significant increase in credit risk since origination, the Group records an allowance for the LTECLs. The mechanics are similar to those explained above but PDs and LGDs are estimated over the lifetime of the instrument. The expected cash shortfalls are discounted by an approximation to the original EIR.

Stage 3

For financial instruments considered credit-impaired (as defined in Note 3), the Group recognises the lifetime expected credit losses for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

POCI

POCI assets are financial assets that are credit impaired on initial recognition. The Group only recognises the cumulative changes in lifetime ECLs since initial recognition, discounted by the credit-adjusted EIR.

Loan Commitments and Letters of Credit

- When estimating LTECLs for undrawn loan commitments, the Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

Notes To The Financial Statements - continued

- For revolving facilities that include both a loan and an undrawn commitment, ECLs are calculated and presented together with the loan. For loan commitments and letters of credit, the ECL is recognised within Provisions.

- When estimating LTECLs for undrawn loan commitments, the Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.

- For revolving facilities that include both a loan and an undrawn commitment, ECLs are calculated and presented together with the loan. For loan commitments and letters of credit, the ECL is recognised within Provisions.

- When estimating LTECLs for undrawn loan commitments, the Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected shortfalls in cash flows if the loan is drawn down. The expected cash shortfalls are discounted at an approximation to the expected EIR on the loan.
- For revolving facilities that include both a loan and an undrawn commitment, ECLs are calculated and presented together with the loan. For loan commitments and letters of credit, the ECL is recognised within Provisions.

Financial Guarantee Contracts

The Group's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the profit or loss, and the ECL provision. For this purpose, the Group estimates ECLs based on the present value of the expected payments to reimburse the holder for a credit loss that it incurs. The shortfalls are discounted by the risk-adjusted interest rate relevant to the exposure. The ECLs related to financial guarantee contracts are recognised within Provisions.

Bank Overdraft and Other Revolving Facilities

The Group's product offering includes a variety of corporate and retail overdraft and credit cards facilities, in which the Group has the right to cancel and/or reduce the facilities with one day's notice. The Bank does not limit its exposure to credit losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Group's expectations of the customer behaviour, its likelihood of default and the Group's future risk mitigation procedures, which could include reducing or cancelling the facilities.

Restructured Financial Assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL is measured as follows:

- if the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating cash shortfalls from the existing asset.

- if the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-Impaired Financial Assets

At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt instruments carried at FVOCI are credit-impaired. Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following:

- there is significant financial difficulty of a customer/issuer/obligor (potential bad debt indicator);
- there is a breach of contract, such as a default or delinquency in interest or principal payments;
- the Group, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the Group would not otherwise consider.
- it becomes probable that a counterparty/borrower may enter bankruptcy or other financial reorganisation;
- there is the disappearance of an active market for a financial asset because of financial difficulties; or
- observable data indicates that there is a measurable decrease in the estimated future cash flows from a group of financial assets.
- the financial asset is 90 days past due

A loan that has been renegotiated due to a deterioration in the borrower's financial condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a loan that is overdue for 90 days or more is considered impaired.

Collateral Valuation

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. The Group's accounting policy for collateral assigned to it through its lending arrangements under IFRS 9 is the same is it was under IAS 39. Collateral, unless repossessed, is not recorded on the Group's statement of financial position. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a quarterly basis. However, some collateral, for example, cash or securities relating to margining requirements, is valued daily. Details of the impact of the Group's various credit enhancements are disclosed in Note 3.

To the extent possible, the Bank uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, or based on housing price indices.

Collateral Repossessed

The Group's accounting policy under IFRS 9 remains the same as it was under IAS 39. The Group's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Group's policy.

In its normal course of business, the Group does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the statement of financial position.

2.4.4 Presentation of Allowance for ECL

Loan allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets;
- Loan commitments and financial guarantee contracts: the loss allowance is recognised as a provision;
- Where a financial instrument includes both a drawn and an undrawn component, and the Group cannot identify the ECL on the loan commitment component separately from those on the drawn component: the Group presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and
- Debt instruments measured at FVOCI: no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in the fair value reserve.

Write-Off

The Group writes off financial assets, in whole or part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include ceasing enforcement activity and where the Group's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Group may write-off financial assets that are still subject to enforcement activity.

Initial and Subsequent Measurement

Financial liabilities are initially measured at their fair value, except in the case of financial liabilities recorded at FVPL, transaction costs are added to, or subtracted from, this amount. Financial liabilities, other than loan commitments and financial guarantees, are measured at amortised cost or at FVPL when they are held for trading and derivative instruments or the fair value designation is applied.

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR. The Group classifies financial liabilities as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading liabilities are recorded and measured in the statement of financial position at fair value.

In both the current and prior period, all financial liabilities are classified and subsequently measured at amortised cost.

Derecognition

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration.

If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

Financial Guarantee Contracts and Loan Commitments

Financial guarantee contracts are contracts that require the Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of the debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities. Loan commitments are firm commitments to provide credit under pre-specified terms and conditions.

Financial guarantees issued or commitments to provide a loan at below-market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently, they are measured at the higher of the amount of loss allowance and the premium received on initial recognition less income recognised in accordance with the principles of IFRS 15.

For loan commitments and financial guarantee contracts, the loss allowance is recognised as a provision. However, for contracts that include both a loan and an undrawn commitment and the Group cannot separately identify the expected credit losses on the undrawn commitment component from those on the loan component, the expected credit losses on the undrawn commitment are recognised together with the loss allowance for the loan. To the extent that the combined expected credit losses exceed the gross carrying amount of the loan, the expected credit losses are recognised as a provision.

Notes To The Financial Statements - continued

2.5 Revenue Recognition

Interest income and expense
Interest income and expense for all interest-bearing financial instruments are recognised within 'Interest income' and 'Interest expense' in the Statement of profit or loss and Other comprehensive income using the effective interest method.

Fees and Commission Income
Fees and commissions are generally recognised on an accrual basis when the service has been provided in line with the requirement of IFRS 15 - Revenue from Contracts with Customers. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan. Loan syndication fees are recognised as revenue when the syndication has been completed and the Group has retained no part of the loan package for itself or has retained a part at the same effective interest rate as the other participants. Commission and fees arising from negotiating, or participating in the negotiation of, a transaction for a third party, are recognised on completion of the underlying transaction.

Income From Bonds or Guarantees and Letters of Credit
Income from bonds or guarantees and letters of credit are recognised on a straight line basis over the life of the bond or guarantee in accordance with the requirement of IFRS 15.

Dividend Income
Dividends are recognised in profit or loss when the entity's right to receive payment is established.

2.6 Impairment of Non-Financial Assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Additionally, intangible assets that have an indefinite useful life and are not subject to amortisation are tested annually for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows (cash-generating units). The impairment test may also be performed on a single asset when the fair value less cost to sell or the value in use can be determined reliably. Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Impairment losses recognised in prior periods are assessed at each reporting date for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. An impairment loss in respect of goodwill is not reversed.

2.7 Statement of Cash Flows

The Statement of cash flows shows the changes in cash and cash equivalents arising during the period from operating activities, investing activities and financing activities. Cash and cash equivalents include highly liquid investments.

The cash flows from operating activities are determined by using the indirect method. Net income is therefore adjusted by non-cash items, such as measurement gains or losses, changes in provisions, as well as changes from receivables and liabilities. In addition, all income and expenses from cash transactions that are attributable to investing or financing activities are eliminated.

The Group's assignment of the cash flows to operating, investing and financing category depends on the Group's business model (management approach). Interest received and interest paid are classified as operating cash flows, while dividends received and dividends paid are included in investing and financing activities respectively.

Notes To The Financial Statements - continued

2.8 Cash and Cash Equivalents

Cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

For the purposes of the statement of cash flows, cash and cash equivalents include cash , due from banks and non-restricted balances with central bank.

2.9 Leases

a The Bank is the lessee

i Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentive received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of- use assets are subject to impairment.

ii Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its **short-term leases** (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of **low-value assets recognition exemption to leases** (i.e., below N1,532,500). Lease payments on short term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

B The Bank is the lessor

i Operating Lease

When assets are subject to an operating lease, the assets continue to be recognised as property and equipment based on the nature of the asset. Lease income is recognised on a straight line basis over the lease term. Lease incentives are recognised as a reduction of rental income on a straight-line basis over the lease term.

ii Finance Lease

When assets are held subject to a finance lease, the related asset is derecognised and the present value of the lease payments (discounted at the interest rate implicit in the lease) is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Lease income is recognised over the term of the lease using the net investment method (before tax), which reflects a constant periodic rate of return.

2.10 Property, Plant and Equipment

Land and buildings comprise mainly branches and offices. All property and equipment used by the Group is stated at historical cost less accumulated depreciation and accumulated impairment losses, if any Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent expenditures are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repair and maintenance costs are charged to 'Other operating expenses' during the financial period in which they are incurred.

Notes To The Financial Statements - continued

Land included in leasehold land and buildings is not depreciated. Depreciation of other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

- Building: 50 years
- Leasehold Improvements: the lower of useful life and lease period.
- Motor vehicles: 4 years
- Furniture and fittings: 5 years
- Computer equipment: 5 years
- Office equipment: 5 years

The assets' residual values, depreciation method and useful lives are reviewed annually, and adjusted if appropriate. Gains and losses on disposals are determined by comparing the proceeds with the carrying amount. These are included in 'Other operating expenses' in profit or loss.

Construction cost and improvements in respect of offices is carried at cost as capital work in progress. On completion of construction or improvements, the related amounts are transferred to the appropriate category of property and equipment. Payments in advance for items of property and equipment are included as Prepayments in "Other Assets" and upon delivery are reclassified as additions in the appropriate category of property, plant and equipment.

Derecognition
An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss

2.11 Intangible Assets
Costs associated with maintaining computer software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group, are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software product so that it will be available for use;
- management intends to complete the software product and use or sell it;
- there is an ability to use or sell the software product;
- it can be demonstrated how the software product will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell thesoftware product are available;
- the expenditure attributable to the software product during its development can be reliably measured.

Subsequent expenditure on computer software is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

Direct computer software costs recognised as intangible assets are amortised on the straight-line basis over the life of the intangible asset and are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Direct computer software costs recognised as intangible assets are amortised on the straight-line basis over the life of the intangible asset and are carried at cost less any accumulated amortisation and any accumulated impairment losses.

Derecognition
An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

2.12 Provisions
Provisions for restructuring costs and legal claims are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. The Group recognises no provisions for future operating losses.

Notes To The Financial Statements - continued

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.13 Retirement Obligations and Employee Benefits

The Group operates the following contribution and benefit schemes for its employees:

2.13.1 Defined Contribution Pension Scheme

The Group operates a defined contributory pension scheme for eligible employees. Bank contributes 10% of the employees' Basic, Housing and Transport allowances in line with the provisions of the Pension Reform Act 2014 while employee contributes 8% summing to 18% annual contribution . The Group pays the contributions to a pension fund administrator. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefits expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. The Group has no further obligation beyond the its 10% contribution at the terminal date or disengagement .

2.13.2 Short-Term Benefits

Wages, salaries, annual leave, bonuses and non-monetary benefits are recognised as employee benefit expenses in the statement of profit or loss and paid in arrears when the associated services are rendered by the employees of the Group.

2.14 Termination Benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed , without realistic possibility of withdrawal , to a formal detailed plan to either terminate employment before the normal retirement date , or to provide termination benefits as a result of an offer made to encourage voluntary redundancy . Termination benefits for voluntary redundancies are recognized in the statement of other comprehensive income if the company has made an offer for voluntary redundancy ,it is probable that the offer will be accepted , and the number of acceptances can be estimated reliably.

2.15 Share Capital

(a) Share Issue Costs

Incremental costs directly attributable to the issue of new shares or options or to the acquisition of a business are shown in equity as a deduction, net of tax, from the proceeds.

(b) Dividends on Ordinary Shares

Dividends on ordinary shares are recognised in equity in the period in which they are approved by the Group's shareholders.

Dividends for the period that are declared after the reporting date are dealt with in the subsequent events note.

Dividends proposed by the Directors but not yet approved by members are disclosed in the financial statements in accordance with the requirements of the Company and Allied Matters Act.

2.16 Fair Value Measurement

The Group measures some financial instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

* In the principal market for the asset or liability
* In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Notes To The Financial Statements - continued

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. These inputs are generally determined based on inputs of a similar nature, historic observations on the level of the input or analytical techniques.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.17 Comparatives

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

2.18 Segment Reporting

IFRS 8 requires an entity to report financial and descriptive information about its reportable segments, which are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which seperate financial information is availble that is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance. The Group has determined the (Executive Committee) as its chief operating decision maker.

An entity shall disclose information to enable users of its financial statements to evaluate the nature and financial effects of the types of business activities in which it engages and the economic environments in which it operates. Following the management approach , operating segments are reported in accordance with the internal reports provided to the Group's Managing Director (the chief operating decision maker). The following summary describes each of the Group's reportable segments.

Retail Banking

The retail banking segment offers a comprehensive range of retail, personal and commercial services to individuals, small and medium business customers including a variety of E-Business products to serve the retail banking segment.

Corporate Banking

The corporate banking segment offers a comprehensive range of commercial and corporate banking services to the corporate business customers including other meduim and large business customers. The segment covers Power and infrastructure, Oil and Gas Upstream and Downstream, Real Estate, Agro-Allied and other industries.

Investment Banking

The Group's investment banking segment is involved in the funding and management of the Group's securities, trading and investment decisions on asset management with a view of maximising the Group's shareholders returns.

Notes To The Financial Statements - continued

3. Financial risk management and fair value measurement and disclosure

3.1 Introduction and overview

IFRS 7 : An entity shall disclose information that enables users of its financial statements to evaluate the nature and extent of risks arising from financial instruments to which the entity is exposed at the end of the reporting period. Set out below is the information about the nature and extent of risks arising from the financial instruments to which the group is exposed at the end of the reporting period.

Enterprise Risk Management

The Group runs an Enterprise-wide Risk Management system which is governed by the following key principles:

- **i)** Comprehensive and well defined policies and procedures designed to identify, assess, measure, monitor and report significant risk exposures of the entity. These policies are clearly communicated throughout the Group and are reviewed annually.
- **ii)** Clearly defined governance structure.
- **iii)** Clear segregation of duties within the Risk Management Division and also between them and the business group
- **iv)** Management of all classes of banking risk broadly categorized into credit, market, liquidity, operational risk independently but in a co-coordinated manner at all relevant levels within the system.
- **v)** Incorporate the volatility in macro economic variables caused by Covid-19 in the inputs and assumptions used for the determination of expected credit losses (“ECLs”)

Risk Management Governance Structure

Enterprise-wide risk management roles and responsibilities are assigned to stakeholders in the Group at three levels as follows:

Level 1 - Board/Executive Management oversight is performed by the Board of Directors, Board Audit Committee, Board Risk Committee, Board Credit Committee (BCC), Board Finance & General Purpose Committee, Board Information Technology Committee and Executive Management Committee (EXCO).

Level 2 - Senior Management function is performed by the Management Credit Committee (MCC), Criticised Assets Committee (CAC), Asset and Liability Management Committee (ALCO), Operational Risk & Service Measurements Committee (ORSMC), Management Performance Reporting Committee (MPR), The Chief Risk Officer (CRO) and Heads of Enterprise Risk Strategy, Loan Monitoring and Portfolio Reporting, Credit Appraisal, Credit Administration, Remedial Assets Management, Market Risk Management and IT & Operational Risk Management.

Level 3 - This is performed by all enterprise-wide Business and Support Units. Business and Support Units are required to comply with all risk policies and procedures and to manage risk exposures that arise from daily

The Group's Corporate Audit Division assists the Board Risk Committee by providing independent appraisal of the Group’s risk framework for internal risk assurance. The Division assesses compliance with established controls and enterprise-wide risk management methodologies. Significant risk related infractions and recommendations for improvement in processes are escalated to relevant Management and Board committees.

Enterprise Risk Management- continued

Enterprise Risk Philosophy

Fidelity Enterprise Risk Mission

Risk Culture

The Group's risk culture proactively anticipates and curtails losses that may arise from its banking risk underwriting. This culture evolved out of the understanding that the Group is in a growth phase which requires strong risk management. By design therefore, the Group operates a managed risk culture, which places emphasis on a mixture of growth and risk control to achieve corporate goals without compromising asset or service quality.

Risk Appetite

The risk appetite describes the quantum of risk that we would assume in pursuit of the Group's business objectives at any point in time. For the Group, it is the core instrument used in aligning the Group's overall corporate strategy, the Group's capital allocation and risks.

The Group defines the Group's Risk Appetite quantitatively at two levels: Enterprise level and Business/Support Unit level.

To give effect to the above, the Board of Directors of the Group sets target Key Performance Indicators (KPIs) at both enterprise and business/support unit levels based on recommendations from the Executive Management Committee

At the Business and Support unit level, the enterprise KPIs are cascaded to the extent that the contribution of each Business/Support Unit to risk losses serves as input for assessing the performance of the Business/Support Unit.

3.2 Credit Risk

3.2.1 Management of credit risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties fail to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in

Credit risk is the single largest risk for the Group's business; management therefore carefully manages its exposure to credit risk. The credit risk management and control are centralised in a credit risk management team which reports regularly to the Board of Directors and head of each business unit.

The Group measures and manage credit risk following the principles below:

- Consistent standards as documented in the Group's credit policies and procedures manual are applied to all credit applications and credit approval decisions.
- Credit facilities are approved for counter-parties only if underlying requests meet the Group's standard risk acceptance criteria.
- Every extension of credit or material change to a credit facility (such as its tenor, collateral structure or major covenants) to any counter-party requires approval at the appropriate authority level. The approval limits are as follows:

Individual Approval Limit

Approving Authority	Tenor	Limit
Business-Facing Executive Director	All tenors	N100m
Managing Director/Chief Executive	Tenor	N200m

Committee Approval Limit

MCC				BCC	Board
Obligor Risk Rating	Up to 2yrs	3 – 5yrs	>5yrs	All Tenors	All Tenors
AAA - A	N3bn	N2bn	N1bn	N7.5bn	Above BCC limit up to Single Obligor Limit (SOL)
BBB – B	N2bn	N1.50bn	N1.0bn	N5bn	
CCC	N0.5bn	N0.3bn	Nil	N2bn	

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

- The Group assigns credit approval authorities to individuals according to their qualifications, experience, training and quality of previous credit decisions. These are also reviewed by the Group periodically.
- The Group measures and consolidates all the Group's credit exposures to each obligor on a global basis. The Group's definition of an "obligor" include a group of individual borrowers that are linked to one another by any of a number of criteria the Group have established, including capital ownership, voting rights, demonstrable control, other indication of group affiliation; or are jointly and severally liable for all or significant portions of the credit the Group have extended.
- The Group's respective business units are required to implement credit policies and procedures while processing credit approvals including those granted by Management and Board Committees.
- Each business unit is responsible for the quality, performance and collection of its credit portfolio including those approved by the Management and Board Committees.
- The Group's Credit Control and Loan Portfolio Monitoring & Reporting departments regularly undertake independent audit and credit quality reviews of credit portfolios held by business units.

3.2.2 Credit Risk Ratings

A primary element of the Group's credit approval process is a detailed risk assessment of every credit associated with a counter-party. The Group's risk assessment procedures consider both the credit worthiness of the counter-party and the risks related to the specific type of credit facility or exposure. This risk assessment not only affects the structuring of the transaction and the outcome of the credit decision, but also influences the level of decision-making authority required to extend or materially change the credit and the monitoring procedures we apply to the on-going exposure.

The Group has its own in-house assessment methodologies and rating scale for evaluating the creditworthiness of it's counter-parties. The Group's programmed 9-grade rating model was developed in collaboration with Agusto & Company, a foremost rating agency in Nigeria, to enable comparism between the Group's internal ratings and the common market practice, which ensures comparability between different portfolios of the Group.

Group rating	Applicable score band	Agusto & Co. Limited	Description of the grade
			Investment grade
AAA	90% - 100%	AAA	Exceptionally strong business fundamentals and overwhelming capacity to meet obligations in a timely manner.
			Standard Monitoring
AA	80% - 89%	AA	Very good business fundamentals and very strong capacity to meet obligations
A	70% - 79%	A	Good business fundamentals and strong capacity to meet obligations
BBB	60%- 69%	BBB	Satisfactory business fundamentals and adequate capacity to meet obligations
BB	50% - 59%	BB	Satisfactory business fundamentals but ability to repay may be contingent upon refinancing.
B	40% - 49%	B	Weak business fundamentals and capacity to repay is contingent upon refinancing.
CCC	30% - 39%	CCC	Very weak business fundamentals and capacity to repay is contingent upon refinancing.
CC	20% - 29%	CC	Very weak business fundamentals and capacity to repay in a timely manner may be in doubt.
			Default
C	0% - 19%	C	Imminent Insolvency

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

3.2.2 Credit Risk Ratings- continued

We generally rate all the Group's credit exposures individually. The rating scale and its mapping to the Standard and Poors agency rating scale is as follows:

Internal Rating Categories	Interpretation	Mapping to External Rating (S&P)
AAA	Impeccable financial condition and overwhelming capacity to meet obligations in a timely manner	AAA
AA	Very good financial condition and very low likelihood of defa	AA
A	Good financial condition and low likelihood of default	A
BBB to BB	Satisfactory financial condition and adequate capacity to meet obligations	BBB to BB
B to CCC	Weak financial condition and capacity to repay is in doubt and may be contingent upon refinancing	B to D

3.2.3 Credit Limits

Portfolio concentration limits are set by the Group to specify maximum credit exposures we are willing to assume over given periods. The limits reflect the Group’s credit risk appetite. The parameters on which portfolio limits are based include limits per obligor, products, sector, industry, rating grade, geographical location, type of collateral, facility structure and conditions of the exposure.

Monitoring Default Risk

The Group's credit exposures are monitored on a continuing basis using the risk management tools described above. The Group has also put procedures in place to identify at an early stage credit exposures for which there may be an increased risk of loss. Counter-parties that on the basis of the application of the Group's risk management tools, demonstrate the likelihood of problems, are identified well in advance so that the Group can effectively manage the credit exposure and maximize the recovery. The objective of this early warning system is to address potential problems while adequate alternatives for action are still available. This early risk detection is a tenet of the Group's credit culture and is intended to ensure that greater attention is paid to such exposures. In instances where the Group has identified counter-parties where problems might arise, the respective exposure is placed on a watch-list.

3.2.4 Expected Credit Loss Measurement

Change in credit quality since initial recognition

Stage 1	Stage 2	Stage 3
Initial recognition	Significant increase in credit risk since initial recognition	Credit-impaired assets
12 month expected credit losses	Lifetime expected credit losses	Lifetime expected credit

(a) Significant Increase In Credit Risk

At initial recognition, the Group allocates each exposure to a credit risk grade based on available information about the borrower that is determined to be predictive of the risk of default and applying experienced credit judgement. Credit risk grades are defined and calibrated such that the risk of default occurring increases as the credit risk deteriorates.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

The Group monitors its loans and debt portfolios to determine when there is a significant increase in credit risk in order to transition from stage 1 to stage 2. In assessing significant increase in credit risk, management considers credit rating, prudential classification and backstop (30 days past due presumption) indicators. Financial assets that have been granted forbearance could be considered to have significantly increased in credit risk.

Backstop Indicators
A backstop is applied and the financial instrument considered to have experienced a significant increase in credit risk if the borrower is more than 30 days past due on its contractual payments.

For assessing increase in credit risk, the Group sets the origination date of revolving and non-revolving facilities as the last reprice date i.e. the last time the lending was re-priced at a market rate.

(b) Definition of Default
The Group considers a financial asset to be in default, which is fully aligned with the credit-impaired, when it meet the following criteria:

Quantitative criteria

- Internal credit rating - Downgrade from Performing to Non-performing (rating grids CC and below)
- Days past due (Dpd) observation – DPDs of 90 days and above
- Prudential classification of sub-standard, doubtful or lost

(c) Measuring ECL – Explanation of inputs, assumptions and estimation techniques
The Expected Credit Loss (ECL) is measured on either a 12-month (12M) or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given Default (LGD), defined as follows:

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per “Definition of default and credit-impaired” above), either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation.
- EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining lifetime (Lifetime EAD). For a revolving commitment, the Group includes the current drawn balance plus any further amount that is expected to be drawn up to the current contractual limit by the time of default, should it occur.
- Loss Given Default (LGD) represents the Group’s expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default (EAD). LGD is calculated on a 12-month or lifetime basis, where 12-month LGD is the percentage of loss expected to be made if the default occurs in the next 12 months and Lifetime LGD is the percentage of loss expected to be made if the default occurs over the remaining expected lifetime of the loan.

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure or collective segment. These three components are multiplied together and adjusted for the likelihood of survival (i.e. the exposure has not prepaid or defaulted in an earlier month). This effectively calculates an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

The Lifetime PD is derived by using historical data to develop specific lifetime PD models for all asset classes. The long term span of historical data is then used to directly model the PD across the life of a exposure. For debt instruments that are not internally rated , the Group obtains the issuer ratings of such instruments and matches them to its internal rating framework to determine the equivalent rating. The lifetime PD curves developed for that rating band will then be used.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

The assumptions underlying the ECL calculation – such as how the maturity profile of the PDs and how collateral values change etc. – are monitored and reviewed on a regular basis.

There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

(d) Forward-Looking information incorporated in the ECL models

The assessment of SICR and the calculation of ECL both incorporate forward-looking information. The Group has performed historical analysis and identified the key economic variables impacting credit risk and expected credit losses for each portfolio.

These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgment has also been applied in this process. Forecasts of these economic variables (the "base economic scenario") are provided by the Group's strategy team on a quarterly basis. The specific macro-economic model applied is a Markov multi-state model of transitions in continuous time with macroeconomic co-variates. The impact of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis. This helps to understand the impact these variables have had historically on default rates and on the components of LGD and EAD.

In addition to the base economic scenario, the Group's strategy team also provides other possible scenarios along with scenario weightings. The number of other scenarios used is based on the analysis of each major product type to ensure non-linearities are captured. The number of scenarios and their attributes are reassessed at each reporting date. At 1 January 2024 and 30 June 2024, the Group concluded that the scenarios appropriately captured non-

As with any economic forecasts, the projections and likelihoods of occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Group considers these forecasts to represent its best estimate of the possible outcomes and has analysed the non-linearities and asymmetries within the Group's different portfolios to establish that the chosen scenarios are appropriately representative of the range of possible scenarios.

Economic Variable Assumptions

The most significant period-end assumptions used for the ECL estimate as at 30 June 2024 are set out below. The scenarios "base", "upside" and "downside" were used for all portfolios.

(e) Grouping Financial Instruments For Collective Assessment

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

In performing this grouping, there must be sufficient information for the group to be statistically credible. Where sufficient information is not available internally, the Group has considered benchmarking internal/external supplementary data to use for modelling purposes. The characteristics used to determine groupings include instrument type, credit risk ratings and industry.

3.2.5 Maximum Exposure to credit risk before collateral held or other credit enhancements

The Bank's maximum exposure to credit risk as at 30 June, 2024 and 31 December 2023 is represented by the gross carrying amounts of the financial assets set out below:

Group	**Maximum exposure**	**Collateral held**	**Surplus collateral**	**Net exposure**
Financial Assets	**30 June 2024**

3.2.7 Credit Quality

A Maximum Exposure to Credit Risk – Financial instruments subject to impairment

The credit risk model is applied as per homogeneous group of risk assets which can be a portfolio or a rating model (e. g. Master Rating). The bank set up 6 portfolios, three of which are a mix of Corporate and Commercial Accounts segregated on the basis of related economic sectors. The other three portfolios are made up of retails accounts segregated on the basis

Code	Description
Portfolio 1	Agriculture, Energy, Manufacturing, Construction & Real Estate
Portfolio 2	Government, Public Sector & NBFIs
Portfolio 3	Transport, Communication, Commerce & General
Portfolio 4	Automobile, Equipment & Mortgage Loans
Portfolio 5	Medium and Small Scale Enterprises
Portfolio 6	Personal & Employee Loans

The following table contains an analysis of the credit risk exposure of financial instruments for which an ECL allowance is recognised. The gross carrying amount of financial assets below also represents the Bank's maximum exposure to credit risk on these assets.

Loss allowance

The loss allowance recognised in the period is impacted by a variety of factors, as described

- Additional allowances for new financial instruments recognised during the period as well as releases for financial
- Impact on the measurement of ECL due to changes in PDs, EADs and LGDs in the period, arising from regular refreshing
- Discount unwind within ECL due to the passage of time, as ECL is measured on a present value basis; and
- Foreign exchange retranslations for assets denominated in foreign currencies and other movements.

3.2.8 Description of Collateral Held

Potential credit losses from any given exposure are mitigated using a range of tools including collateral securities, insurance bonds and policies as well as different forms of guarantees. The Group assesses the degree of reliance that can be placed on these credit risk mitigants carefully in the light of issues such as legal enforceability, market valuation, correlation with exposure and the counterparty risk of the guarantor.

(a) Key Collateral Management Policies

The Group's risk mitigation policies determine the eligibility of collateral types. Eligible collateral types for credit risk mitigation include: cash; residential, commercial and industrial property in acceptable locations; fixed assets such as motor vehicles, plant and machinery; marketable securities; bank guarantees; confirmed domiciliation of payments; credit and insurance bonds, warehouse warrants, lien on shipping documents; back-to-back letters of credit; etc. The Bank also enters into collateralised reverse repurchase agreements where appropriate. For certain types of lending, typically mortgages and asset financing, the right to take charge over physical assets is a significant consideration in determining appropriate pricing and recoverability in the event of default.

The Group reports collateral values in accordance with the Group’s risk mitigation policy, which prescribes the frequency of valuation for different collateral types, based on the level of price volatility of each type of collateral and the nature of the underlying product or risk exposure. Depending on the nature of the collateral, frequent or periodic evaluations are carried out to determine the adequacy of collateral margins. Services of independent professional appraisers are used where the Group lacks adequate internal valuation capability or where dictated by industry practice or legal requirements. Where appropriate, collateral values are adjusted to reflect current market conditions, the probability of recovery and the period of time to realise the collateral in the event of repossession.

The Group will only grant unsecured loans where clean lending is a market feature and insistence on security would compromise Bank’s market share. In such an instance, the Group ensures that the borrower has proven record of sound financial condition and ability to repay the loan from internal sources in the ordinary course of business. In addition, we ensure that total outstanding borrowings of the obligor do not exceed 70% of estimated asset value.

The Group believes that the requirement for collateral is not a substitute for the ability to pay, which is a primary consideration in the Bank's lending decisions. Although the Group will usually collaterise its credit exposure to a customer, such an obligor is expected to repay the loan in the ordinary course of business without forcing the Group to look to the collateral for ultimate repayment. Therefore, if while reviewing a loan request, there is the possibility that the collateral will need to be relied upon to repay the loan, the Group will not grant the facility.

Where guarantees are used for credit risk mitigation, the creditworthiness of the guarantor is assessed and established using the credit approval process in addition to that of the obligor or main counterparty.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

Management of secured credits requires periodic inspections of the collateral to ensure its existence and adequacy for the bank's exposure. These inspections include examination of security agreements to determine enforceability of liens, verification of adequate insurance protection, proper legal registration and adequacy of overall safeguards.

When obligations are secured by marketable securities, predetermined maintenance margins are established and the securities are liquidated if the value falls to this limit except if additional and satisfactory security is provided. In all cases, only valuations done at the instance of the Group can be considered acceptable for the purposes of credit risk mitigation. The Group ensures that all properties and chattels pledged as collateral are properly and adequately insured with the Group's interest duly noted as first loss beneficiary. Only insurance policies obtained from an insurance firm in the Group's pre-approved list of Insurance Companies are acceptable as eligible collateral.

The Group's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Bank since the prior year.

The following table indicates the Bank's credit exposures by class and value of collaterals:

Group		**30 June 2024**		**31 December 2023**
	Exposure	**Collateral Value**	**Exposure**	**Collateral Value**
	N'million	**N'million**	**N'million**	**N'million**
Secured against real estate	146,359	1,370,557	262,135	995,106
Secured by shares of quoted companies	4,135	5,149	-	
Secured by others	3,778,975	17,960,692	2,973,511	16,399,742
Unsecured	1,083	-	742	-
Gross Loans and Advances to Customers	**3,930,551**	**19,336,398**	**3,236,389**	**17,394,847**

Bank		**30 June 2024**		**31 December 2023**
	Exposure	**Collateral Value**	**Exposure**	**Collateral Value**
	N'million	**N'million**	**N'million**	**N'million**
Secured against real estate	133,440	1,340,664	262,135	995,106
Secured by shares of quoted companies	4,135	5,149	-	
Secured by others	3,754,473	17,934,948	2,843,447	16,399,742
Unsecured	1,083	-	742	-
Gross Loans and Advances to Customers	**3,893,131**	**19,280,761**	**3,106,324**	**17,394,847**

The Bank closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Bank will take possession of collateral to mitigate potential credit losses.

3.3 Liquidity Risk

Liquidity risk is the risk that the Group is unable to meet its payment obligations associated with its financial liabilities when they fall due and to replace funds when they are withdrawn. The consequence may be the failure to meet obligations to repay depositors and fulfil commitments to lenders.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

3.3.1 Management of Liquidity Risk

The Group's principal liquidity objective is to ensure that the Group holds sufficient liquid reserve to enable it meet all probable cashflow obligations, without incurring undue transaction costs under normal conditions. Liquidity management safeguards the ability of the group to meet all payment obligations as they fall due. The Group's liquidity risk management framework has been an important factor in maintaining adequate liquidity and a healthy funding profile during the period and is structured to identify, measure and manage the Group's liquidity risk at all times. The Board approved liquidity policy guides the management of liquidity risk strategically through the Board Risk Committee (BRC) as well as Asset and Liability Committee (ALCO) and daily by the Market Risk Division. The liquidity management framework is designed to identify measure and manage the Group's liquidity risk position at all times. Underlying Assets and Liabilities Management policies and procedures are reviewed and approved regularly by the Assets and Liability Management Committee (ALCO).

The Group has established liquidity and concentration limits and ratios, tolerance levels as well as triggers, through which it identifies liquidity risk. It also uses gap analysis to identify short, medium and long term mismatches, deploying gapping strategies to appropriately manage them. Periodic monitoring is carried out to trigger immediate reaction to deviations from set limits.

Short-Term Liquidity

The Group's reporting system tracks cash flows on a daily basis. This system allows management to assess the Group's short-term liquidity position in each location by currency and products. The system captures all of the Group's cash flows from transactions on the Group's Statement of financial position, as well as liquidity risks resulting from off-balance sheet transactions. We take account of products that have no specific contractual maturities by extrapolating from their historical behaviour of cash flows.

Asset Liquidity

The asset liquidity component tracks the volume and booking location of the Group's inventory of unencumbered liquid assets, which we can used to raise liquidity in times of need. The liquidity of these assets is an important element in protecting us against short-term liquidity squeezes. We keep a portfolio of highly liquid securities in major currencies to supply collateral for cash needs associated with clearing activities.

Funding Diversification

Diversification of the Group's funding profile in terms of investor types, regions, products and instruments is also an important element of the Group's liquidity risk management practices. In addition, the group invests in liquid assets to facilitate quick conversion to cash, should the need arise.

Stress Testing

As a result of volatilities which take place in the Group's operating environment, the Group conducts stress tests to evaluate the size of potential losses related to rate movements under extreme market conditions. These are conducted on elements of its trading portfolio and the balance sheet in response to the economic and market outlook. Consideration is given to historical events, prospective events and regulatory guidelines. The Group, after ALCO's authorization, responds to the result of this activity, by modifying the portfolio and taking other specific steps to reduce the expected impact in the event that these risks materialize.

3.4 Market Risk

The Group takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will be adversely affected by changes in market prices such as interest rates, foreign exchange rates, equity prices and commodity prices.

3.4.1 Management of Market Risk

Essentially, the banking business is subject to the risk that financial market prices and rates will move and result in profits or losses for us. Market risk arises from the probability of adverse movements in financial market prices and rates. The Group's definition of financial market prices in this regard refer to interest rates, equity prices, foreign exchange rates, commodity prices, the correlations among them and their levels of volatility. Interest rate and equity price risks consist of two components each: general risk, which describes value changes due to general market movements, and specific risk which has issuer-related causes.

The Group assumes market risk in both the Group's trading and non-trading activities. The Group underwrite market risks by making markets and taking proprietary positions in the inter-bank, bonds, foreign exchange and other security markets. The Group separates its market risk exposures between the trading and the banking books. Overall authority and management of market risk in the Group is invested on the Assets and Liability Management Committee (ALCO).

The Board approves the Group’s Market Risk Management policy and performs its oversight management role through the Board Risk Committee (BRC).The Group’s trading strategy evolves from its business strategy, and is in line with its risk appetite. The Group's Market Risk division manages the Group’s market risk in line with established risk limits, which are measured, monitored and reported periodically. Established risk limits, which are monitored on a daily basis by the Group's Market Risk group, include intraday, daily devaluation for currency positions, net open position, dealers’, deposit placement, stop loss, duration and management action trigger limits. Daily positions of the Group's trading books are marked-to-market to enable it obtain an accurate view of its trading portfolio exposures. Financial market prices used in the mark-to-market exercise are independently verified by the Market Risk division with regular reports prepared at different levels to reflect volatility of the Groups earnings

3.4.2 Foreign Exchange Risk

The Bank takes on exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Board sets limits on the level of exposure by currency and its aggregate for both overnight and intra-day positions, which are monitored daily.

The table below summarises the Bank's exposure to foreign currency exchange risk at 30 June 2024.

Loans and advances to customers	1,425,087	4,460	10,508	1,522,343	2,962,397
Derivative financial assets	10,723				10,723
Investment securities:	-	-	-		
- Financial assets at FVTPL	-	-	-	7,684	7,684
- Debt instruments at FVOCI	18,495	-	-	169,066	187,561
- Equity instruments at FVOCI	9,507	-	-	95,446	104,953
- Debt instruments at amortised cost	-	-	-	818,803	818,803
Other financial assets	355,347	11,442	813	23,789	391,391
	2,018,991	**23,919**	**32,171**	**3,959,425**	**6,034,506**
Financial liabilities					
Customer deposits	1,243,428	24,752	20,523	2,638,139	3,926,842
Derivative financial liabilities	-				-
Other liabilities	247,342	2,138	2,138	882,256	1,133,874
Debt issued and other borrowed funds	511,458			65,570	577,028
	2,002,228	**26,890**	**22,660**	**3,585,966**	**5,637,744**
Net exposure	16,763	(2,971)	9,510	373,460	396,762

Sensitivity Analysis of Foreign Currency Statement of Financial Position

Currency	**USD N'million**	**GBP N'million**	**Euro N'million**
Net effect on Statement of Financial Position	16,763	(2,971)	9,510
Closing Exchange Rate (Naira/ Currency)	952	1,140	991
1% Currency Depreciation (+)	961	1,152	1,001
Net effect of depreciation on Profit or loss	168	(30)	95
1% Currency Appreciation (-)	942	1,129	981
Net effect of appreciation on Profit or loss	(168)	30	(95)

The Bank's exposure to foreign exchange risk is largely concentrated in USD. Movement in the exchange rate between the foreign currencies and the Nigerian naira affects reported earnings through revaluation gain or loss and the statement of financial position through an increase or decrease in the revalued amounts of financial assets and liabilities denominated in foreign currencies.

3.4.4 Equity Price Risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in the level of equity indices and individual stocks. A 57 percent increase in the value of the Group's equity investment at FVOCI at 30 June 2024 would have increased equity investment by N23.7 billion (December 2023: N77.4 billion). An equivalent decrease would have resulted in an equivalent but opposite impact.

(a) Financial Instruments Measured at Fair Value

IFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable input reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs)

This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.

(c) Fair Valuation Methods and Assumptions

(i) Cash and balances with central banks

Cash and balances with central bank represent cash held with central banks of the various jurisdictions in which the Group operates. The fair value of these balances approximates their carrying amounts.

(ii) Due from other banks

Due from other banks represents balances with local and correspondence banks, inter-bank placements and items in the course of collection. The fair value of the current account balances, floating placements and overnight deposits approximates their carrying amounts.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

(iii) Derivatives

The Group uses widely recognized valuation models for determining the fair value of common and simple financial instruments, such as interest rate and currency swaps that use only observable market data and require little judgement and estimation. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded derivatives and simple OTC derivatives such as interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determining fair values. Availability of observable markets prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

(iv) Treasury Bills and Bonds

Treasury bills represent short term instruments issued by the Central banks of the jurisdiction where the Group operates. The fair value of treasury bills are derived from the quoted yields, while the fair value of bonds are determined with reference to quoted prices in active markets for identical assets. For certain securities market prices cannot be readily obtained especially for illiquid Federal Government Bonds, State Government and Corporate Bonds. The positions were marked-to-model at 30 June 2024 and 31 December 2023 based on yields for identical assets. Fair value is determined using discounted cash flow model.

(v) Equity Securities

The fair value of unquoted equity securities are determined based on the level of information available. The investment in unquoted entities is carried at fair value. They are measured at fair value using price multiples.

(vi) Loans and Advances to customers

Loans and advances are carried at amortised cost net of allowance for impairment. The estimated fair value of loans and advances represents the discounted amount of estimated future cash flows expected to be received. Expected cash flows are discounted at current market rates to determine fair value.

(vii) Overdraft

The management assessed that the fair value of Overdrafts approximate their carrying amounts largely due to the short-term maturities of these instruments.

(viii) Other Assets

Other assets represent monetary assets which usually has a short recycle period and as such the fair values of these balances approximate their carrying amount.

(ix) Deposits from banks and due to customers

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The estimated fair values of fixed interest-bearing deposits and borrowings are determined using a discounted cash flow model based on a current yield curve appropriate for the remaining term to maturity.

(x) Other Liabilities

Other liabilities represent monetary assets which usually has a short recycle period and as such the fair values of these balances approximate their carrying amount.

(xi) Debt Issued And Other Borrowed Funds

The fair value of the Group's Eurobond issued is derived from quoted market prices in active markets. The fair values of the Group's interest-bearing borrowings and loans are determined by using the DCF method using discount rate that reflects the issuer’s borrowing rate as at the end of the reporting period. The fair value is determined by using discounted cashflow method.

3.6 Operational Risk Management

Operational risk is the potential for loss arising from inadequate or failed internal processes, people and systems or from external events. This definition includes legal and regulatory risk, but excludes strategic and reputational risk.

The scope of operational risk management in the Group covers risk exposures that may lead to unavailability of service, information deficiency, financial loss, increased costs, loss of professional reputation, failure to keep or increase market share, risks which result in the imposition of sanctions on the Group by regulators or legal proceedings against the Group by third parties.

• The event of Covid-19 situation made the Group put additional focus on several operational risk aspects, such as:

– Business continuity plans to support our employees, customers and overall businesses.
– Potential increase of cyber risk due to new conditions in business management and remote working. Our cyber security programme continued to be improved by strengthening detection, response and protection mechanisms.
– Increase in technological support in order to ensure adequate customer service and correct performance of our services, especially in online banking and call centres.

Organizational Set-up

Operational Risk Management is an independent risk management function within Fidelity Bank group. The Operational Risk & Service Measurements Committee is the main decision-making committee for all operational risk management matters and approves the Group's standards for identification, measurement, assessment, reporting and monitoring of operational risk. Operational Risk Management is responsible for defining the operational risk framework and related policies while the responsibility for implementing the framework day-to-day operational risk management lies with the Group's business and support units. Based on this business partnership model, the Group ensures close monitoring and high awareness of operational risk.

Operational Risk Framework

As is common with all businesses, operational risk is inherent in all operations and activities of the Group. We therefore carefully manage operational risk based on a consistent framework that enables us to determine the Group's operational risk profile in comparison to the Groups risk appetite and to define risk mitigating measures and priorities. We apply a number of techniques to efficiently manage operational risk in the Group's business, for example: as part of the Group's strategy for making enterprise risk management the Group's discriminating competence, the Group has redefined business requirements across all networks and branches using the following tools:

Loss Data Collection

The Group implements an event driven Loss Data Collection (LDC) system designed to facilitate collection of internal loss data triggered at the occurrence of a loss event anywhere within the divisions of the Group. The LDC system captures data elements, which discriminate between boundary events related to credit, market and operational risk. The system facilitates collection of loss data arising from actual losses, potential losses and near misses. Work-flow capabilities built within the Group's predefined Event Escalation Matrix enable risk incidents to be reported to designated Event Identifiers, Event Managers, Event Approvers and Action Owners that manage each risk incident from point of occurrence to closure.

Risk and Control Self Assessments (RCSA)

The Group implement a quantitative methodology for the its Risk and Control Self Assessments, which supports collection of quantitative frequency and severity estimates. Facilitated top-down RCSA workshops are used by the Group to identify key risks and related controls at business unit levels. During these workshops business experts and senior management identify and discuss key risks, controls and required remedial actions for each respective business unit and the results captured within the operational risk database for action tracking.

Key Risk Indicators (KRIs)

The Group measures quantifiable risk statistics or metrics that provide warning signals of risk hotspots within the entity. The Group has established key risk indicators with tolerance limits for core operational groups of the entity. The Group's KPI database integrates with the Loss Data Collection and Risk & Control Self Assessment models and systems to provide red flags that typically inform initiatives for risk response actions in the Group.

Notes To The Financial Statements - continued

Enterprise Risk Management- continued

Business Continuity Management (BCM)
The Group recognises that adverse incidences such as technology failure, natural and man-made disasters could occur and may affect the Group's critical resources leading to significant business disruption. To manage this risk, our BCM plans assist in building resilience for effective response to catastrophic events. In broad categories, the plans which are tested periodically, cover disaster recovery, business resumption, contingency planning and crisis management.

4. Capital Management

The Bank’s objectives when managing capital, which is a broader concept than the ‘equity’ on the face of statement of financial position, are:

a.To comply with the capital requirements set by the regulators of the banking markets where the entities within the Bank
b. To safeguard the Bank’s ability to continue as a going concern so that it can continue to provide returns for shareholders
c. To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored daily by the Bank’s management, employing techniques based on the guidelines developed by the Central Bank of Nigeria (CBN), for supervisory purposes. The required information is filed with the CBN on a monthly basis.

The CBN requires each bank to: (a) hold the minimum level of the regulatory capital of N25 billion and (b) maintain a ratio of total regulatory capital to the risk-weighted asset at or above the minimum of 15% for an internatiional licensed Bank.

In 2016, the Central Bank of Nigeria issued circular BSD/DIR/CIR/GEN/LAB/06/03 to all Banks and discount houses on the implementation of Basel II/III issued 10 December 2013 and guidance notes to the regulatory capital measurement and management for the Nigerian Banking System for the implementation of Basel II/III in Nigeria. The capital adequacy ratio for the period ended 30 June 2024 and the comparative period 31 December 2023 is in line with the new circular. The computations are consistent with the requirements of Pillar I of Basel II ACord (Interenal Convergence of capital measurement and Capital Standards. Although the guidelines comply with the requirement of the Basel II accord certain sections were adjusted to reflect the peculiarities of the Nigerian enviroment.

The Bank’s regulatory capital as managed by its Financial Control and Treasury Units is made up of Tier 1 and Tier 2 capital as follows:

Tier 1 capital: This includes only permanent shareholders' equity (Fully paid ordinary shares/common stock and perpetual non-cumulative preference shares) and disclosed reserves (created or increased by appropriations of retained earnings or other surpluses). There is no limit on the inclusion of Tier 1 capital for the purpose of calculating regulatory capital.

Tier 2 capital: This includes revaluation reserves, general provisions/general loan loss reserves, Hybrid (debt/equity), capital instruments and subordinated debt. Tier 2 capital is limited to a maximum of 33.3% of the total of Tier 1 capital.

The CBN excluded the following reserves in the computation of total qualifying capital:

1. The Regulatory Risk Reserve created pursuant to Section 12.4 (a) of the Prudential Guidelines which was effective on 1 July 2010 is excluded from regulatory capital for the purposes of capital adequacy assessment;
2. Collective impairment on loans and receivables and other financial assets no longer forms part of Tier 2 capital; and
3. Other Comprehensive Income (OCI) Reserves is recognized as part of Tier 2 capital subject to the limits on the Calculation of Regulatory Capital.

5 SEGMENT ANALYSIS

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reports provided to the Bank's Executive Committee (the chief operating decision maker). During the period to 30 June, 2024, Management prepared its financial records in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board . This segment is what the Bank's Executive Committee reviews in assessing performance, allocating resources and making investment decisions.

Transactions between the business segments are on normal commercial terms and conditions.

Segment result of operations

The segment information provided to the Executive Committee for the reportable segments for the period ended 30 June 2024 is as follows:

	Group			
	Retail banking N 'millions	**Corporate banking N 'millions**	**Investment banking N 'millions**	**Combined N 'millions**
At 30 June 2024				
Revenue derived from external customers	314,992	90,362	107,509	512,864
Revenues from other segments	-	-	-	-
Total	314,992	90,362	107,509	512,864

These lines have been included in the segment analysis report since they are usually provided in the report to the Chief Operating Decision Maker.

Notes To The Financial Statements - continued

6 Interest and similar income using effective interest rate method

	Group 30 June 2024 N'million	Group 30 June 2023 N'million	Bank 30 June 2024 N'million	Bank 30 June 2023 N'million
Loans and advances to customers	286,110	164,036	282,093	164,036
Advances under finance lease	943	1,409	943	1,409
Treasury bills and other investment securities:				
-Fair value through other comprehensive income	10,254	2,362	10,254	2,362
-Amortised cost	61,480	22,023	62,345	22,023
Placements and short term funds	5,171	593	2,221	593
`	**363,959**	**190,423**	**357,856**	**190,423**

Interest and similar income represents interest income on financial assets measured at amortised cost and Fair value through other comprehensive income.

Interest income accrued on impaired financial assets amount to N2,781.05 million (30 June 2023 N1,262.40 million) which is part of interest income recognized in the financial Statement .

7 Interest expense calculated using the effective interest rate method

	Group 30 June 2024 N'million	Group 30 June 2023 N'million	Bank 30 June 2024 N'million	Bank 30 June 2023 N'million
Term deposits	75,080	49,814	76,622	49,814
Debts issued and other borrowed funds	37,756	14,985	37,697	14,985
Savings deposits	17,805	9,730	17,795	9,730
Current accounts	6,850	2,766	6,847	2,766
Inter-bank takings	2,266	67	854	67
Intervention loan	7,073	4,715	7,073	4,715
	146,830	**82,077**	**146,887**	**82,077**

Total interest expense is calculated using the effective interest rate method as reported above and does not include interest expense on financial liabilities carried at fair value through profit or loss.

15a Banking sector resolution cost represents AMCON statutory levy chargeable annually on every Bank's total assets in Nigeria. This is applicable on total balance sheet size of the Bank. The current applicable rate in Nigeria based on AMCON Act of 2021 is 0.5% of total assets (inclusive of off-balance sheet)

15b The Bank paid external auditors' professional fees for the provision of non-audit services. The total amount of non-audit services provided to the external auditors during the period was N11.80million. These non-audit services were for Common Reporting Standard (CRS) Reporting (N1.72 million), Corporate Tax Reporting (N10.08 million). These services in the Bank's opinion, did not impair the independence and objectivity of the external auditors as adequate safeguards were put in place .

15c Included in other expense is the sum of N1.83 billion remitted to Central Bank of Nigeria in respect of cash processing fees deducted from cash deposits and cash withdrawals by defined thresholds , in line with CBN Circular BKS/DIR/CON/DMB/001/043 of July 15 ,2024 . "The total amount has been recognized in the current period ''

15d The bank paid a total of N504.35 million as contribution to the Industrial Training Fund, (Annual contribution).

d The Companies Income Tax Act 2004 and as amended, stipulates that Companies be assessed at 30% of taxable income.

e The Nigerian Police Trust Fund Act (PTFA) 2019, stipulates that operating business in Nigeria to contribute 0.005% of their net profit to Police Trust Fund. In line with the Act, the Bank has provided for Police Trust Fund at the specified rate and recognised it as part of income tax for the period

Notes To The Financial Statements - continued

f The National Information Technology Agency Act (NITDA) 2007, stipulates that specified companies contribute 1% of their profit before tax to National Information Development Agency. In line with the Act, the Bank has provided for Information technology levy at the specified rate and recognised it as part of income tax for the period.

g Tertiary Education Tax (TET) as amended by Finance Act 2022, stipulates that 3% of assessable profit of bank shall be contributed to funding of tertiary educational institutions in Nigeria. The specified rate has been provided for as Tertiary Education Tax and recognized as part of income tax for the period by the Bank

h National Agency for Science and Engineering Infrastructure Act (NASENI) stipulates that 0.25% of bank profit before tax should be contributed to funding the agency. The Bank has provided for the specified rate for NASENI fund and recognised it as part of the income tax for the period.

17 Net reclassification adjustments for realised net gains

The net reclassification adjustments for realised net gains from other comprehensive income to profit or loss are in respect of debt instruments measured at fair value through other comprehensive income which matured during the period See Other Comprehensive Income.

18 Earnings per share (EPS)

Basic earnings per share is calculated by dividing the net profit attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the year. The diluted earnings per share is the same as basic EPS because there are no potential ordinary shares outstanding during the reporting period.

	Group 30 June 2024 N'million	Group 30 June 2023 N'million	Bank 30 June 2024 N'million	Bank 30 June 2023 N'million
Profit attributable to equity holders of the Bank (N'million)	159,834	61,995	158,565	61,995
Weighted average number of ordinary shares in issue (N'million)	32,000	32,000	32,000	32,000
Basic & diluted earnings per share (expressed in kobo per share)	**499.48**	**193.73**	**495.51**	**193.73**

a Basic and diluted earnings per share are the same, as the Bank has no potentially dilutive ordinary shares.

20 Restricted balances with central bank

	30 June 2024 N'million	31 December 2023 N'million	30 June 2024 N'million	31 December 2023 N'million
Mandatory reserve deposits with central bank (see note 20.1 below)	982,563	945,037	982,563	945,037
Special cash reserve (see note 20.2 below)	239,622	229,361	239,622	229,361
Carrying amount	**1,222,184**	**1,174,398**	**1,222,184**	**1,174,398**

20.1 Mandatory reserve deposits are not available for use in the Bank's day-to-day operations. It represents a percentage of the Customers' deposits and are non interest-bearing. The amount, which is based on qualified assets, is determined by the Central Bank of Nigeria from time to time. For the purpose of statement of cash flows, these balances are excluded from the cash and cash equivalents.

20.2 Special cash reserve represents special Intervention funds held with Central Bank of Nigeria as a regulatory requirement.

20.3 Cash and Bank Balances was seperated into Cash and Cash Equivalent ,and Balances with Central Bank to reflect best practice . See Note 44

21 Goodwill

	30 June 2024 N'million	31 December 2023 N'million
At 1 January 2024	8,656	14,650
Allocation to Intagible Assets	-	(4,777)
Deferred tax	-	(1,217)
Write - off	-	-
Translation Difference	5,564	-
At 30 June 2024	**14,220**	**8,656**

21.1 **FIDBANK United Kingdom (UK)** - Determination of Goodwill is shown in Note 2.1.3viii

21.2 Goodwill is the cost of acquired company in excess of the fair value of net assets, including identifiable intangible assets, at the acquisition date.

21.3 Goodwill is reviewed annually or more frequently for impairment when there are objective indicators that impairment may have occurred by comparing the carrying value to its recoverable amount.

The Group performed its annual goodwill impairment test as of June 30 , 2024, by applyimg the Fair value less cost to sale approach (MARKET VALUE (P/BV) APPROACH) to arrive at a price of $1.65 , with a discount rate of 10% applied (Discount for lack of marketability) which resulted in no impairment of the reporting units' goodwill . See Note 21.4 below

21.4 **The table below shows the Impairment testing result of Reporting Unit (Fid Bank Uk)**

Fidelity Bank UK Limited

Impairment testing as at 30 June 2024

USD'000	LOW	HIGH
Recoverable Amount	**48,718**	**53,147**
Carrying Amount	48,199	48,199
Headroom/ (Impairment)	519	4,948
Decision :	Not Impaired	Not Impaired

21.5 The Group used the following factors to inform its assumptions used in the goodwill impairment test:

Performance Indicators.

For 2024, the Group generated higher net revenues net of provision for credit losses and increased book value per share, as well as increased overall performance compared with 2023. This Increase reflected the group's continued execution of its strategic focus, which had a positive impact on net earnings. Within the reporting units with goodwill, there continued to be solid fundamentals underlying the business, where the group continued to maintain strong positions and also deepening its strategic goals.

Macroeconomic Indicators

Despite broad macroeconomic and geopolitical concerns, the global economy continued to grow in 2024.

Notes To The Financial Statements - continued

Firm and Industry Events.

There were no events, entity specific or otherwise, that would have had a significant negative impact on the valuation of the firm's reporting units with goodwill.

Fair Value Indicators.

Changes in the fair value indicators in the market did not have a significant negative impact on the valuation of the goodwill that resulted to Impairment recognition .

Notes To The Financial Statements - continued

22 Loans and Advances to Customers - continued

22.1 Impairment allowance for loans and advances to customers- continued

The contractual amount outstanding on loans that have been written off, but were still subject to enforcement activity was nil at 30 June 2024 (31 December 2023: nil).

The increase in ECLs of the portfolio was driven by an increase in the gross size of the portfolio and movements between stages as a result of increase in credit risk and changes in economic conditions. Further analysis of economic factors is outlined in Note 3.

22.1.2 Loans to individuals

The table below shows the credit rating of loans to individuals and the maximum exposure to credit risk based on the Bank's internal credit rating system and year-end stage classification. The amounts presented are gross of impairment allowances. Details of the Bank's internal grading system are explained in Note 3.2.2 and policies on whether ECL allowances are calculated on an individual or collective basis are set out in Note 3.2.1.

23 Derivative Financial Instruments

The Bank entered into derivative contracts with counter parties; Total Return Swap with Standard Chartered Bank ("SCB") , Meshraq; Non-deliverable Forwards and Swap with the Central Bank of Nigeria ("CBN") in the period ended 30 June 2024 (December 2023) . The table below shows the fair values of derivative financial instruments recorded as assets together with their notional amounts ; Nil Derivative Liabilities . The notional amount, recorded gross, is the quantity of the derivative contracts' underlying instrument (being foreign currency and treasury bills). The notional amounts indicate the volume of transactions outstanding at the period end and are not indicative of either the market or credit risk. The value of Futures June 2024 represent deposit at exchange (NGX) for Futures transactions .

23a Derivative financial Assets	**Group 30 June 2024 N'million**	**Group 31 December 2023 N'million**	**Bank 30 June 2024 N'million**	**Bank 31 December 2023 N'million**

Notional Amount				
Forward Contract	-	-	-	-
Futures Contracts	-	-	-	-
Total	**-**	**-**	**-**	**-**

i The Bank enters into currency forward / futures contracts with counter parties. On initial recognition, the Bank estimates the fair value of derivatives transacted with the counter parties in line with IFRS 13. In many cases, all significant inputs into the valuation techniques are wholly observable (e.g with reference to similar transactions in the dealer market.) See note 2.4.2 c

ii During the period, various derivative contracts entered into by the Bank generated a net gain which was recognized in the statement of profit or loss and other comprehensive income , while no liability was recognized .

iii All derivative contracts are current .

24.5 Pledged Assets

The assets pledged as collateral were given to the counter parties without transferring the ownership to them. These are held by the counter party for the term of the transaction being collateralized.

Treasury Bills and Bonds are pledged to the Nigerian Inter Bank Settlement System Company Plc (NIBSS) in respect of the Bank's ongoing participation in the Nigerian settlement system. The Bank pledged Treasury bills and Bonds in its capacity as collection bank for government taxes and Interswitch electronic card transactions. The pledges are overnight collaterals to allow the free flow of the bank''s daily transactions.

The nature and carrying amounts of the assets pledged as collaterals are as follows:

	Group 30 June 2024 N'million	Group 31 December 2023 N'million	Bank 30 June 2024 N'million	Bank 31 December 2023 N'million
Treasury bills - Amortised cost	35,993	35,993	35,993	35,993
Federal Government bonds - Amortised cost	90,055	90,055	90,055	90,055

24.6 Impairment losses on financial investments subject to impairment assessment

24.6.1 Debt Instruments Measured at FVOCI

The table below shows the fair value of the Bank's debt instruments measured at FVOCI by credit risk, based on the Bank's internal credit rating system and reporting Period end stage classification. Details of the Bank's internal grading system are explained in Note 3.2.2 and policies on whether ECL allowances are calculated on an individual or collective basis are set out in Note 3.2.4:

Group	**30 June 2024**				
	Stage 1 Collectively	**Stage 2 Collectively**		**Stage 3**	**Total**

a FGN Intervention fund is CBN Bailout Fund of N79.82billion (31 Dec 2023: N79.82 billion). This represents funds for states in the Federation that are having challenges in meeting up with their domestic obligation including payment of salaries. The loan was routed through the Bank for on-lending to the states. The Bailout fund is for a tenor of 20 years at 9% per annum. See Note 31.3 k

b The Real Sector Support Facility (RSSF): The Central Bank of Nigeria, as part of the efforts to unlock the potential of the real sector to engender output growth, productivity and job creation has established a N300 billion Real Sector Support Facility (RSSF). The facility is disbursed to large enterprises and startups with financing needs of N500 million up to a maximum of N10.0 billion. The activities targeted by the Facility are manufacturing, agricultural value chain and selected service sub-sectors. The funds are received from the CBN at 2% per annum, and disbursed at 9% per annum to the beneficiary .

c The fund received under the Central Bank of Nigeria (CBN) Commercial Agriculture Credit Scheme represents a credit line granted to the Bank for the purpose of providing concessionary funding to the agricultural sector.The facility attracts an interest rate of 2% per annum and the Bank is under obligation to on-lend to customers at an all-in interest rate of not more than 9% per annum. Based on the structure of the facility, the Bank assumes the default risk of all amounts lent to the Bank's customers. This facility is not secured.

Notes To The Financial Statements - continued

d The Central Bank of Nigeria (CBN) / Bank of Industry (B0I) - SME / Manufacturing Intervention Fund represents an intervention credit granted to the Bank for the purpose of refinancing / restructuring existing loans to Small and Medium Scale Enterprises (SMEs) and Manufacturing Companies. The total facility is secured by Nigerian Government Securities. A management fee of 1% per annum is deductible at source and the Bank is under obligation to on-lend to customers at an all-In interest rate of 7% per annum. The Bank is the primary obligor to CBN / BOI and assumes the risk of default.

Federal Government through CBN, BOI and DBN to enable DMOs avail loans at single digit rates or rates lower than the normal commercial rate to qualifying institutions in line with the guidelines provided by CBN, BOI and DBN.

e Non-oil Export Stimulation Facility (NESF): This Facility was established by the Central Bank of Nigeria to diversify the economy away from the oil sector, after the fall in crude prices. The Central Bank invested N500billion debenture, issued by Nigerian Export-Import Bank (NEXIM). The facility disbursed per customer shall not exceed 70% of total cost of project, or subject to a maximum of N5 billion. Funds disbursed to the Bank from CBN are at a cost of 2% which are then disbursed to qualifying customers at the rate of 9% per annum.

f The purpose of granting new loans and refinancing / restructuring existing loans to companies in the power and aviation industries is to support Federal Government's focus on the sectors. The facility is secured by Irrevocable Standing Payment Order (ISPO). The maximum tenor for term loans under the programme is 15 years while the tenor for working capital is one year, with option to renew the facility annually subject to a maximum tenor of five years. The facility attracts an interest rate of 2% per annum payable quarterly in arrears and the Bank is under obligation to on-lend to customers at an

g CBN 100 for 100 PPP - (Policy on Production and Productivity) was established by the Central Bank of Nigeria to stimulate investments in Nigeria's manufacturing sector with the core objective of boosting production and productivity necessary to transform and catalyse the productive base of the economy. The fund is disbursed to the Bank at 2% per annum. Each enterprise is availed the facility at 9% per annum and repayments are made via ISPO deductions.

h CBN PAS FUND - The Paddy Aggregation Scheme (PAS) is for Integrated Rice Millers and Large-Scale Aggregators to enable them to purchase home-grown rice paddy at a single digit interest rate to promote the Federal Government of Nigeria's National Food Security Programme (NFSP). It is to provide credit facilities to Integrated Rice Millers and Large-scale rice paddy aggregators at single digit interest rate to increase local production of rice towards effecting lower prices and enhancing national food security.. The fund is disbursed to the Bank at 6% per annum. Each enterprise is availed the facility at 9% per annum and repayments are made via ISPO deductions.

i The Bailout fund is for a tenor of 20 years at 7% per annum and availed for the same tenor at 9% per annum until March 2020 , the rate was reduced to 5% for 1 year period due to Covid 19 pandemic to March 2021 after which it was extended to February 2023 . CBN on August 17 2022 further reviewed the rates in response to economic outlook and approved the following order; All intervention facilities granted effective July 20, 2022 shall be at 9% per annum while all existing intervention facilities granted prior to July 20, 2022 shall be at 9% per annum effective September 1, 2022.

j The bank carries out modification test on all Intervention funds / loans . The modification test was performed and there was no material impact on the financial statement from the assessment.

31.4 Payable on E-banking transactions are settlement balances for RTGS/NIBSS transaction and Etransact transactions .

31.5 Other liabilities/credit balances are credit balances for other liabilities, other than the ones relating to customers deposit.

31.6 A provision has been recognised in respect of staff year end bonus, the provision has been recognised based on the fact that there is a constructive and legal obligation on the part of the Bank to pay bonus to staff where profit has been declared. The provision has been calculated as a percentage of the profit after tax.

35 Other Equity Accounts

The nature and purpose of the other equity accounts are as follows:

Share Premium
Premiums from the issue of shares are reported in share premium.

Retained Earnings
Retained earnings comprise the undistributed profits from previous years and current period, which have not been reclassified to the other reserves

Notes To The Financial Statements - continued

35 Other Equity Accounts- continued

a Dividends

The following dividends were declared and paid by the Bank during the period -

	30 June 2024 N'million	31 December 2023 N'million
Balance, begining of Period	-	-
Final dividend declared	19,200	12,800
Interim dividend declared	-	8,000
Payment during the period	(19,200)	(20,800)
Balance, end of period	-	-

b Statutory Reserve

Nigerian banking regulations require the Bank to make an annual appropriation to a statutory reserve. As stipulated by S.15(1) of the Banks and Other Financial Institution Act of Nigeria, an appropriation of 30% of profit after tax is made if the statutory reserve is less than paid-up share capital and 15% of profit after tax if the statutory reserve is greater than the paid-up share capital. The Bank made a transfer of N23,785 million to statutory reserves during the period ended 30 June 2024 (31 December 2023: N14,975 million)

c Small Scale Investment Reserve

The SMEEIS reserve is maintained to comply with the Central Bank of Nigeria (CBN) requirement that all licensed banks set aside a portion of the profit after tax in a fund to be used to finance equity investment in qualifying small and medium scale enterprises. Under the terms of the guideline (amended by CBN letter dated 11 July 2006), the contribution was 10% of profit after tax for the first 5 (five) periods , and thereafter reduced to 5% of profit after tax.

d Non-Distributable Regulatory Reserve

The amount at which the loan loss provision under IFRS is less than the loan loss provision under prudential guideline is booked to a non-distributable

e Fair Value Reserves

The fair value reserve includes the net cumulative change in the fair value of financial assets measured at fair value through other comprehensive income until the investment is derecognised or impaired.

f AGSMEIS Reserve

Agri-Business/Small and Medium Enterprises Investment Scheme (AGSMEIS); AGSMEIS fund is maintained to support the Federal Government's effort at promoting Agricultural businesses and Small and Medium Enterprises. Effective 2017 all Deposit Money Banks (DMBs) are required to set aside 5% of their Profit After Tax for equity investment in permissible activities as stipulated in the scheme guidelines. The fund is domiciled with CBN.

Though there is no longer mandatory transfers to this reserve under the earlier directives, all Nigerian banks are now required to set aside an amount equal to 5% of their annual Profit After Tax (PAT) towards the funding of equity investments, which qualify under the AGSMEIS Scheme. This is done after the statutory external audit and Central Bank of Nigeria (CBN) approval.

g Translation Reserves

The translation reserve comprises all foreign currency difference arising from the translation of the financial statements of foreign operations. There were no effective portion of any foreign currency differences arising from hedges of a net investment in a foreign operation.

h Non-controlling Interest

Fidelity Bank acquired 100% holding of the United Kingdom component

37 Contingent Liabilities and Commitments

37.1 Capital Commitments

At the reporting date, the Bank had capital commitments amounting to N6.61 billion (31 Dec 2023: N4.10billion). The capital commitments relate to property plant and Equipment.

37.2 Confirmed credits and other obligations on behalf of customers

In the normal course of business the Bank is a party to financial instruments with off-statement of financial position risk. These instruments are issued to meet the credit and other financial requirements of customers. The contractual amounts of the off-balance sheet financial instruments are:

	Group 30 June 2024 N'million	Group 31 December 2023 N'million	Bank 30 June 2024 N'million	Bank 31 December 2023 N'million
Performance bonds and guarantees (Note 32.3.1)	828,661	730,779	828,661	730,779
Letters of credit (Note 32.3.2)	685,585	413,362	676,500	413,362
AGSMEIS Disbursement			-	-
	1,514,246	**1,144,141**	**1,505,161**	**1,144,141**

Included in Performance bonds and guarantees is N104.03bn (31 December 2023: N104.46billion) Bank of industry backed guarantee. Unsettled transactions are transaction that the Bank has entered into, but is either yet to make payment or receive payment in respect of these transactions.

37.3 Claims and Litigation

The Bank is a party to legal actions arising out of its normal business operations.The Directors believe that, based on currently available information and advice of counsel , none of the outcomes that result from the proceedings will have a material adverse effect on the financial position of the bank either individually or collectively

As at reporting date, the Bank is currently involved in 63 cases as defendant (31 December 2023 - 65) and 7 cases as Plaintiff (31 December 2023- 7). The total amount claimed against the Bank is estimated at N12.97 billion as at June 30, 2024 (31 Dec 2023: N11.74 billion) while the amount in the 7 cases instituted by the Bank is N3.95 billion as at 30 June 2024 (31 Dec 2023: N3.95 billion, 7 Cases). Based on the advice of the Bank's legal team and the case facts, the management of the Bank estimates a potential loss of N1.886 billion (31 Dec 2023: N1.886 billion) upon conclusion of the cases. A provision for the potential loss of N1.886 billion is shown in 32.

Notes To The Financial Statements - continued

43 Statement of Prudential Adjustments

a Provisions under prudential guidelines are determined using the time-based provisioning specified by the revised Prudential Guidelines issued by the Central Bank of Nigeria. This is at variance with the expected credit loss (ECL) model required under IFRS 9. As a result of the differences in the methodology/provision, there will be variances in the impairments provisions required under the two methodologies.

Paragraph 12.4 of the revised Prudential Guidelines for Deposit Money Banks in Nigeria stipulates that Banks would be required to make provisions for loans as prescribed in the relevant IFRS when IFRS is adopted. However, Banks would be required to comply with the following:

Transfer to Regulatory Risk Reserve
The regulatory body Central Bank of Nigeria (CBN) and the Nigerian Deposit Insurance Commission (NDIC) stipulates that provisions recognized in the profit or loss account shall be determined based on the requirements of IFRS (International Financial Reporting Standards). The IFRS provisions should be compared with provisions determined under prudential guidelines and the expected impact/changes in retained earnings should be treated as follows:

(i) Prudential Provisions is greater than IFRS provisions; transfer the difference from the retained earnings to a non-distributable regulatory reserve.
(ii) Prudential Provisions is less than IFRS provisions; the excess charges resulting should be transferred from the regulatory reserve account to the retained earnings to the extent of the non-distributable regulatory reserve previously recognized.

b The non-distributable reserve is classified under Tier 1 as part of the core capital for the purpose of determining capital adequacy.

In the guidelines to IFRS implementation, the Central Bank of Nigeria (CBN) directed banks to maintain a regulatory credit risk reserve in the event that the impairment on loans determined using the CBN prudential guideline is higher than the impairment determined using IFRS principles. As a result of this directive, the Bank holds credit risk reserves of N120.11billion as at 30 June 2024 (31 December 2023 - N100.3billion) .
